WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

The *Weekly Compilation of Presidential Documents* began with the issue dated Monday, August 2, 1965. It contains transcripts of the President's news conferences, messages to Congress, public speeches, remarks and statements, and other Presidential material released by the White House up to 5 p.m. of each Friday. This weekly service includes an Index of Contents preceding the text and a Cumulative Index to Prior

Issues at the end. Cumulation of this index terminates at the end of each quarter and begins anew with the following issue. Semiannual and annual indexes are published separately.

The *Weekly Compilation of Presidential Documents* is sold to the public on a subscription basis. The price of individual copies varies.

Subscription Price: \$6.00 per year

Withdrawal for Oil Shale

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the deposits of oil shale and lands containing such deposits, owned by the United States and under the administrative jurisdiction of the Department of the Interior in the following described areas, are hereby withdrawn (1) from appropriation under the United States mining laws relating to metalliferous minerals, and (2) from sodium leasing except as hereafter provided, for protection of the multiple development of the minerals and other resources in the lands:

2. The lands, or portions thereof, in-
cluding deposits of trona in Wyoming,
may be leased for sodium development
where the Secretary of the Interior or
his delegate finds that the development
of these sodium deposits would not ad-
versely affect the oil shale values of the
lands. Any sodium prospecting permit
or preference right lease that may issue
on these oil shale lands will be restricted
to those beds valuable for sodium which
the Secretary of the Interior or his dele-
gate determines to be workable without
removal of significant amounts of or-

ganic matter and without significant
damage to oil shale beds. Extractive op-
erations on competitive sodium leases
will be restricted to those beds valuable
for sodium which the Secretary of the
Interior or his delegate determines to be
workable without removal of significant
amounts of organic matter and without
significant damage to oil shale beds.

3. Leases or permits in effect on Jan-
uary 27, 1967, are not affected by this
order except that in negotiations of any
renewals thereof, the provisions of para-
graph 2 of this order will apply.

4. This order supplements but does not
otherwise affect the withdrawal for oil
shale made by Executive Order 5327 of
April 15, 1930, and modifications thereof.

STEWART L. UDALL,
Secretary of the Interior.

Subpart—White-Fringed Beetle

Pursuant to sections 8 and 9 of the
Plant Quarantine Act of August 20, 1912,
as amended, and section 106 of the Fed-
eral Plant Pest Act (7 U.S.C. 161, 162,
150ee), Notice of Quarantine No. 72 re-
lating to the white-fringed beetle and
regulations supplemental to said quar-
antine (7 CFR 301.72, 301.72-1, 301.72-2,
301.72-3 through 301.72-9), are hereby
revised to read as follows:

AUTHORITY: The provisions of this subpart
issued under secs. 8, 9, 37 Stat. 318 as
amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161,
162, 150ee; 29 F.R. 16210, as amended, 30 F.R.
5799, as amended.

§ 301.72 Quarantine; restriction on in- terstate movement of specified regu- lated articles.

(a) *Notice of quarantine.* Pursuant to
the provisions of sections 8 and 9 of the
Plant Quarantine Act of August 20, 1912,
as amended, and section 106 of the
Federal Plant Pest Act (7 U.S.C. 161,
162, 150ee), the Secretary of Agriculture
heretofore determined, after public
hearing, that it was necessary to quar-
antine the States of Alabama, Ar-
kansas, Florida, Georgia, Louisiana, Mis-
sissippi, North Carolina, South Carolina,
Tennessee, and Virginia in order to pre-
vent the spread of white-fringed beetle
infestations of species of the genus
Graphognathus, commonly known as
white-fringed beetles, dangerous insects
of cultivated crops, not theretofore
widely prevalent or distributed within
and throughout the United States, and
accordingly quarantined said States. Un-
der the authority of said provisions, the
Secretary hereby continues such quar-
antine in effect with respect to the inter-
state movement from the quarantined
States of the articles described in para-
graph (b) of this section, issues the
regulations in this subpart governing
such movement, and gives notice of said
quarantine and regulations.

(b) *Quarantine restrictions on inter-
state movement of specified regulated
articles.* No common carrier or other
person shall move interstate from any
quarantined State of the following arti-
cles (defined in § 301.72-1(1) as regu-
lated articles), except in accordance with
the conditions prescribed in this subpart:

- (1) Soil, compost, decomposed ma-
nure, humus, muck, and peat, separately
or with other things.
- (2) Plants with roots.
- (3) Grass sod.
- (4) Plant crowns and roots for propa-
gation.
- (5) True bulbs, corms, rhizomes, and
tubers of ornamental plants when freshly
harvested or uncured.
- (6) Potatoes (Irish) when freshly
harvested.
- (7) Peanuts in shells and peanut
shells, except boiled or roasted peanuts.
- (8) Uncleaned grass, grain, and
legume seed.
- (9) Hay and straw.
- (10) Seed cotton.
- (11) Scrap metal and junk.
- (12) Brick, stone, concrete slabs,
drainage pipes, and building blocks.
- (13) Forest products, such as pulp-
wood, stumpwood, logs, lumber, and
cross ties.
- (14) Used mechanized cultivating
equipment and used harvesting machin-
ery.
- (15) Used mechanized soil-moving
equipment.
- (16) Any other products, articles, or
means of conveyance, of any character
whatsoever, not covered by subpara-
graphs (1) through (15) of this para-
graph, when it is determined by an in-
spector that they present a hazard of
spread of white-fringed beetle, and the

person in possession thereof has been so notified.

§ 301.72-1 Definitions.

Terms used in the singular form in this subpart shall be deemed to import the plural, and vice versa, as the case may demand. The following terms, when used in this subpart, shall be construed, respectively to mean:

(a) *Certificate*. A document issued or authorized to be issued under this subpart by an inspector to allow the interstate movement of regulated articles to any destination.

(b) *Compliance agreement*. A written agreement between a person engaged in growing, handling, or moving regulated articles, and the Plant Pest Control Division, wherein the former agrees to comply with the requirements of this subpart identified in the agreement by the inspector who executes the agreement on behalf of the Division as applicable to the operations of such person.

(c) *Director*. The Director of the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, or any other officer or employee of said Service to whom authority to act in his stead has been or may hereafter be delegated.

(d) *Generally infested area*. Any part of a regulated area not designated as a suppressive area in accordance with § 301.72-2.

(e) *Infestation*. The presence of the white-fringed beetle or the existence of circumstances that make it reasonable to believe that white-fringed beetle is present.

(f) *Inspector*. Any employee of the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, or other person authorized by the Director to enforce the provisions of the quarantine and regulations in this subpart.

(g) *Interstate*. From any State, territory, or district into or through any other State, territory, or district of the United States (including Puerto Rico).

(h) *Limited permit*. A document issued or authorized to be issued by an inspector to allow the interstate movement of noncertifiable regulated articles to a specified destination for limited handling, utilization, or processing or for treatment.

(i) *Mechanized cultivating equipment; mechanized soil-moving equipment*. Mechanized equipment used for cultivating purposes, e.g., turning or disk plows; or for moving or transporting soil, e.g., draglines, bulldozers, road scrapers, and dumptrucks.

(j) *Moved (movement, move)*. Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved by any means. "Movement" and "move" shall be construed accordingly.

(k) *Person*. Any individual, corporation, company, society, or association or other organized group of any of the foregoing.

(l) *Regulated area*. Any quarantined State or any portion thereof listed as a regulated area in § 301.72-2a or otherwise designated in accordance with § 301.72-2(a).

(m) *Regulated articles*. Any articles described in § 301.72(b).

(n) *Restricted destination permit*. A document issued or authorized to be issued by an inspector to allow the interstate movement of regulated articles not certifiable under all applicable Federal domestic plant quarantines to a specified destination for other than scientific purposes.

(o) *Scientific permit*. A document issued by the Director to allow the interstate movement to a specified destination of regulated articles for scientific purposes.

(p) *Soil*. That part of the upper layer of earth in which plants can grow.

(q) *Suppressive area*. That part of a regulated area where eradication of infestation is undertaken as an objective, as designated by the Director under § 301.72-2(a).

(r) *Treatment manual*. The provisions currently contained in the "Manual of Administratively Authorized Procedures To Be Used Under the White-Fringed Beetle Quarantine," the manual of "Procedures for Applying Soil, Surface and Foliage Treatments for Regulatory Purposes" and the "Fumigation Procedures Manual," and any amendments thereto.

(s) *White-fringed beetles*. Species of the genus *Graphognathus*, in any stage of development.

§ 301.72-2 Authorization to designate regulated areas and suppressive or generally infested areas; and articles which are exempt from certification, permit, or other requirements.

The Director shall publish and amend from time to time as the facts warrant, the following lists:

(a) *List of regulated areas and suppressive or generally infested areas*. The Director shall list as regulated areas in a supplemental regulation designated as § 301.72-2a, the quarantined States or portions thereof in which white-fringed beetle has been found or in which there is reason to believe that white-fringed beetle is present, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities. The Director in the supplemental regulation may divide any regulated area into a suppressive area and a generally infested area in accordance with the definitions thereof in § 301.72-1. Less than an entire quarantine State will be designated as a regulated area only if the Director is of the opinion that:

(1) The State has adopted and is enforcing a quarantine or regulation which

¹ Pamphlets containing such provisions are available, upon request from the Director, Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, or from an inspector.

imposes restrictions on the intrastate movement of the regulated articles which are substantially the same as those which are imposed with respect to the interstate movement of such articles under this subpart; and

(2) The designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the white-fringed beetle.

The Director, or an authorized inspector, may temporarily designate any other premises in a quarantined State as a regulated area and a suppressive or generally infested area, in accordance with the criteria specified above for listing such areas, by serving written notice thereof on the owner or person in possession of such premises, and thereafter the interstate movement of regulated articles from such premises by any person having notice of this designation shall be subject to the applicable provisions of this subpart. As soon as practicable, such premises shall be added to the list in § 301.72-2a if a basis then exists for their designation.

(b) *List of articles which are exempt from certification, permit, or other requirements*. The Director may, in a supplemental regulation designated as § 301.72-2b, list regulated articles which shall be exempt from the certification, permit, or other requirements of this subpart under such conditions as he may prescribe, if he finds that facts exist as to the pest risk involved in the movement of such regulated articles which make it safe to so relieve such requirements.

§ 301.72-3 Conditions governing the interstate movement of regulated articles from quarantined States.²

Any regulated articles may be moved interstate from any quarantined State under the following conditions:

(a) From any regulated area, with certificate or permit issued and attached in accordance with §§ 301.72-4 and 301.72-7 if moved:

(1) From any regulated area into or through any point outside of the regulated areas; or

(2) From any generally infested area into or through any suppressive area; or

(3) Between any noncontiguous suppressive area; or

(4) Between contiguous suppressive areas when it is determined by the inspector that the regulated articles present a hazard of the spread of the white-fringed beetle and the person in possession thereof has been so notified; or

(b) From any regulated area, without certificate or permit if moved:

(1) Under the provisions of § 301.72-2b which exempts certain articles from certificate and permit requirements; or

(2) From a generally infested area to a contiguous generally infested area; or

(3) From a suppressive area to a contiguous generally infested area; or

² Requirements under all other applicable Federal domestic plant quarantines must also be met.

(4) Between contiguous suppressive areas unless the person in possession of the articles has been notified by an inspector that a hazard of spread of the white-fringed beetle exists; or

(5) Through or reshipped from any regulated area if the articles originated outside of any regulated area and if the point of origin of the articles is clearly indicated, their identity has been maintained and they have been safeguarded against infestation while in the regulated area in a manner satisfactory to the inspector; or

(c) From any area outside the regulated areas, without a certificate or permit if the regulated articles are exempt under the provisions of § 301.72-2b or if the point of origin of such movement is clearly indicated on the articles or shipping document which accompanies the articles, and if the movement is not made through any regulated area.

§ 301.72-4 Issuance and cancellation of certificates and permits.

(a) Certificates may be issued for any regulated articles by an inspector if he determines that they are eligible for certification for movement to any destination under all Federal domestic plant quarantines applicable to such articles and:

(1) Have originated in noninfested premises in a regulated area and have not been exposed to infestation while within the regulated areas; or

(2) Upon examination, have been found to be free of infestation; or

(3) Have been treated to destroy infestation in accordance with the treatment manual; or

(4) Have been grown, produced, manufactured, stored, or handled in such a manner that no infestation would be transmitted thereby.

(b) Limited permits may be issued by an inspector to allow interstate movement of regulated articles, not eligible for certification under this subpart, to specified destinations for limited handling, utilization, or processing, or for treatment in accordance with the treatment manual, when upon evaluation of the circumstances involved in each specific case he determines that such movement will not result in the spread of the white-fringed beetle and requirements of other applicable Federal domestic plant quarantines have been met.

(c) Restricted destination permits may be issued by an inspector to allow the interstate movement (for other than scientific purposes) of regulated articles to any destination permitted under all applicable Federal domestic plant quarantines if such articles are not eligible for certification under all such quarantines but would otherwise qualify for certification under this subpart.

(d) Scientific permits may be issued by the Director to allow the interstate movement of regulated articles for scientific purposes under such conditions as may be prescribed in each specific case by the Director.

(e) Certificate, limited permit and restricted destination permit forms may be

issued by an inspector to any person for use by the latter for subsequent shipments provided such person is operating under a compliance agreement; and any such person may be authorized by an inspector to reproduce such forms on shipping containers or otherwise. Any such person may use the certificate forms, or reproductions of such forms, for the interstate movement of regulated articles from the premises of such person identified in the compliance agreement if such person has made appropriate determinations as specified in paragraph (a) of this section with respect to such articles. Any such person may use the limited permit forms, or reproductions of such forms, for interstate movement of regulated articles to specified destinations authorized by the inspector in accordance with paragraph (b) of this section. Any such person may use the restricted destination permit forms, or reproductions of such forms, for the interstate movement of regulated articles not eligible for certification under all Federal domestic plant quarantines applicable to such articles, under the conditions specified in paragraph (c) of this section.

(f) Any certificate or permit which has been issued or authorized may be withdrawn by the inspector if he determines that the holder thereof has not complied with any condition for the use of such document imposed by this subpart.

§ 301.72-5 Compliance agreements; and cancellation thereof.

(a) Any person engaged in the business of growing, handling, or moving regulated articles may enter into a compliance agreement to facilitate the movement of such articles under this subpart. Compliance agreement forms may be obtained from the Director or an inspector.

(b) Any compliance agreement may be cancelled by the inspector who is supervising its enforcement whenever he finds, after notice and reasonable opportunity to present views has been accorded to the other party thereto, that such other party has failed to comply with the conditions of the agreement.

§ 301.72-6 Assembly and inspection of regulated articles.

Persons (other than those authorized to use certificates, limited permits, or restricted destination permits, or reproductions thereof, under § 301.72-4(e)) who desire to move interstate regulated articles which must be accompanied by a certificate or permit shall, as far in advance as possible, request an inspector to examine the articles prior to movement. Such articles shall be assembled at such points and in such a manner as the inspector designates to facilitate inspection.

§ 301.72-7 Attachment and disposition of certificates or permits.

(a) If a certificate or permit is required for the interstate movement of regulated articles, the certificate or permit shall be securely attached to the out-

side of the container in which such articles are moved, except that, where the certificate or permit is attached to the waybill or other shipping document, and the regulated articles are adequately described on the certificate, permit, or shipping document, the attachment of the certificate or permit to each container of the articles is not required.

(b) In all cases, certificates, or permits shall be furnished by the carrier to the consignee at the destination of the shipment.

§ 301.72-8 Inspection and disposal of regulated articles and pests.

Any properly identified inspector is authorized to stop and inspect, and to seize, destroy, or otherwise dispose of, or require disposal of regulated articles and white-fringed beetles as provided in section 10 of the Plant Quarantine Act (7 U.S.C. 164a) and section 105 of the Plant Pest Act (7 U.S.C. 150dd), in accordance with instructions issued by the Director.

§ 301.72-9 Movement of live white-fringed beetles.

Regulations requiring a permit for, and otherwise governing the movement of live white-fringed beetles in interstate or foreign commerce are contained in the Federal Plant Pest Regulations in Part 330 of this chapter. Applications for permits for the movement of the pest may be made to the Director.

§ 301.72-10 Nonliability of the Department.

The U.S. Department of Agriculture disclaims liability for any costs incident to inspections or compliance with the provisions of the quarantine and regulations in this subpart, other than for the services of the inspector.

This revision shall become effective upon publication in the FEDERAL REGISTER when it shall supersede the notice of quarantine and regulations effective September 17, 1964.

The primary purposes of this revision are to simplify and clarify the white-fringed beetle quarantine and regulations. The only substantive changes made are as follows:

Provision is made for the Director, or an authorized inspector, temporarily to designate any premises in a quarantined State as a regulated area and a suppressive or generally infested area by serving written notice thereof on the owner or person in possession of such premises. The list of regulated articles has been revised to include certain articles which may disseminate the white-fringed beetle and which were heretofore covered by general language, and to exclude certain articles which are no longer considered hazardous. The revision contains provisions with respect to compliance agreements with persons handling regulated articles. A requirement is added for persons moving regulated articles from portions of quarantined States not included within the "regulated areas" to provide proof of origin in connection with such shipments. Provisions are also added under which certificates will not

be issued or authorized to be issued for regulated articles unless the articles are certifiable under all applicable Federal domestic plant quarantine requirements; restricted destination permits are authorized; and all certificates and permits are required to be surrendered to the consignee at the destination of the shipment.

To the extent that this revision relieves certain restrictions presently imposed, it should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions which are being relieved. To the extent that this revision imposes restrictions that are necessary in order to prevent the dissemination of the white-fringed beetle, it should be made effective promptly in order to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this revision are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 8 and 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 7 CFR 301.72-2)

This supplemental regulation shall become effective upon publication in the FEDERAL REGISTER when it shall supersede P.P.C. 618, 6th Rev. 7 CFR 301.72-2a, effective June 21, 1966.

The Director of the Plant Pest Control Division has determined that infestations of the white-fringed beetle exist or are likely to exist in the civil divisions and parts of civil divisions, listed above, or that it is necessary to regulate such localities because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities. The Director has further determined that each of the quarantine States is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the white-fringed beetle. Therefore, such civil divisions and parts of civil divisions listed above, are designated as white-fringed beetle regulated areas.

The purpose of this revision is to add to the regulated areas for the first time parts of the following counties or parishes: Barbour, Cherokee, Cleburne, Coosa, Fayette, Hale, Lamar, Pickens, and Pike in Alabama; Lee and Phillips in Arkansas; Columbia, Madison, Suwannee, and Wakulla in Florida; Baker, Butts, Clarke, Grady, Heard, Jeff Davis, Lanier, Miller, Oconee, Spalding, Thomas, Tift, and Wilcox in Georgia; De Sota, East Feliciana, Lincoln, and St. Helena in Louisiana; Alcorn, Calhoun, Chickasaw, Claiborne, Coahoma, Franklin, Jefferson, Madison, Monroe, Pontotoc, Tishomingo, Tunica, and Union in Mississippi; Horry in South Carolina; and Davidson, Lincoln, and Weakley in Tennessee. It also extends the areas in 88 previously regulated counties. This revision deletes Quitman County in Mississippi from the regulated areas.

This document imposes restrictions that are necessary in order to prevent the spread of the white-fringed beetle, and should be made effective promptly to accomplish its purposes in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553,

that notice and other public procedure with respect to the foregoing regulation are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 18th day of September 1968.

D. R. SHEPHERD,
Director,
Plant Pest Control Division.

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—White-Fringed Beetle

EXEMPTIONS

Under authority of § 301.72-2 of the White-Fringed Beetle Quarantine regulations (7 CFR 301.72-2, as amended, 33 F.R. 14356, a supplemental regulation exempting certain articles from specified requirements of the regulations is hereby issued to appear in 7 CFR 301.72-2b as set forth below. The Director of the Plant Pest Control Division has found that facts exist as to the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided therein.

§ 301.72-2b. Exempted articles.

(a) The following articles are exempt¹ from the certification, permit, or other requirements of this subpart if they meet the applicable conditions prescribed in subparagraphs (1) through (3) of this paragraph and have not been exposed to infestation after cleaning or other handling as prescribed in said paragraphs:

(1) Compost, decomposed manure, humus and peat, if dehydrated, ground, pulverized or compressed.

(2) Brick, stone, concrete slabs, drainage pipes, and building blocks, if not exposed to infestation in storage, or if the storage site has been treated with an approved pesticide.

(3) Forest products, such as pulpwood, stumpwood, logs, lumber, and cross ties, if not exposed to infestation in storage, or if the storage site has been treated with an approved pesticide.

(b) The following articles are exempt from the certification, permit, or other requirements of this subpart under the applicable conditions prescribed in subparagraphs (1) through (3) of this paragraph:

(1) Soil samples of any size if collected, and shipped to any U.S. Army Corps of Engineers soil laboratory located within the conterminous United States, in accordance with a compliance agreement with the shipper pertaining to such consignments.

¹ The articles hereby exempted remain subject to applicable restrictions under other quarantines.

(2) Soil samples of 1 pound or less which are packaged so that no soil will be spilled in transit, and are consigned to a laboratory approved by the Director for such purpose: *Provided*, That soil samples originating in areas under Federal or State regulation because of infestation with soybean cyst nematode, golden nematode, or witchweed are not exempted: *Provided further*, That soil samples originating in areas under such regulation because of the burrowing nematode may not be shipped into the States of Arizona, California, Louisiana, or Texas. One pound samples meeting the requirements set forth above may be assembled in a single package for shipping purposes.²

(3) Seed cotton, if moving to any gin designated by an inspector.³

(Secs. 8, and 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 7 CFR 301.72-2)

This list of exempted articles shall become effective upon publication in the FEDERAL REGISTER when it shall supersede the list of exempted articles in 7 CFR 301.72a (P.P.C. 485, 5th Revision), which became effective March 15, 1966.

The principal purpose of this document is to delete from the list of exempted articles cottonseed and cinders because they are no longer regulated; and hay, straw, uncleaned grass, grain, and legume seed because the inspector at destination cannot determine if they were properly treated or stored.

The document relieves certain restrictions which are not deemed necessary in order to prevent the interstate spread of the white-fringed beetle and imposes other restrictions which are deemed necessary for this purpose. It should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions being relieved and to protect the noninfested States from white-fringed beetle. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this document are impracticable and unnecessary and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 18th day of September 1968.

J. F. SPEARS,
Acting Director,
Plant Pest Control Division.

[F.R. Doc. 68-11584; Filed, Sept. 23, 1968; 8:48 a.m.]

² Any laboratory is eligible for approval by the Director for purposes of this paragraph if it is operated under a compliance agreement as defined in § 301.72-1(b). A notice listing approved laboratories will be published periodically in the FEDERAL REGISTER. Copies of the current list may also be obtained from the Director, Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, or from an inspector.

³ Any gin is eligible for designation under this subpart if the operator thereof enters a compliance agreement (as defined in § 301.72-1(b)). Information as to designated gins may be obtained from the inspector.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Grapefruit Reg. 10; Grapefruit Reg. 9 Terminated]

PART 944—FRUIT; IMPORT REGULATIONS

Grapefruit

§ 944.106 Grapefruit Regulation 10.

(a) On and after September 30, 1968, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the U.S. Standards for Florida Grapefruit; and

(2) Seedless grapefruit shall grade at least Improved No. 2 and be of a size not smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the U.S. Standards for Florida Grapefruit. ("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.)

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, is hereby designated as the governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of grapefruit that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with appropriate evidence therefor in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of grapefruit, is required on all imports of grapefruit. Such inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title) but, since inspectors are not located in the immediate vicinity of some of the small ports of entry, such as those in southern California, importers of grapefruit should make arrangements for inspection, through the applicable one of the following offices, at least the specified number of days prior to the time when the grapefruit will be imported:

Ports	Office	Advance notice
All Texas points...	L. M. Denbo, 506 south Nebraska St., San Juan, Tex. 78589. (Phone—512-787-4091); or A. D. Mitchell, Room 516, U.S. Court house, El Paso, Tex. 79901. (Phone—915-533-9351, Ext. 5340).	1 day. Do.

(c) Inspection certificates shall cover only the quantity of grapefruit that is being imported at a particular port of entry by a particular importer.

(d) The inspection performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any grapefruit to be imported into the United States shall set forth, among other things:

- (1) The date and place of inspection;
- (2) The name of the shipper, or applicant;
- (3) The commodity inspected;
- (4) The quantity of the commodity covered by the certificate;
- (5) The principal identifying marks on the container;
- (6) The railroad car initials and number, the truck and the trailer license number, the name of the vessel, or other identification of the shipment; and
- (7) The following statement if the facts warrant: "Meets U.S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended."

(f) Notwithstanding any other provision of this section, any importation of grapefruit which, in the aggregate does not exceed five standard nailed boxes, or

equivalent quantity, may be imported without regard to the restrictions specified herein.

(g) It is hereby determined that imports of grapefruit, during the effective time of this section, are in most direct competition with grapefruit grown in the State of Florida. The requirements set forth in this section are the same as those being made effective for grapefruit grown in Florida.

(h) No provisions of this section shall supersede the restrictions or prohibitions on grapefruit under the Plant Quarantine Act of 1912.

(i) Nothing contained in this section shall be deemed to preclude any importer from reconditioning prior to importation any shipment of grapefruit for the purpose of making it eligible for importation.

(j) The terms used herein relating to grade, diameter, standard pack, and standard box shall have the same meaning as when used in the U.S. Standards for Florida Grapefruit (§§ 51.750—51.783 of this title). Importation means release from custody of the U.S. Bureau of Customs.

Grapefruit Regulation 9 (§ 944.105, 32 F.R. 12938; 17425; 33 F.R. 848, 3215, 4561, 5579, 5941, 6096, 9593) is hereby terminated at the effective time hereof.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective time of this regulation beyond that herein specified (5 U.S.C. 553) in that (a) the requirements of this import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), which makes such regulation mandatory; (b) the grade and size requirements of this import regulation are the same as those being made applicable to all domestic shipments of grapefruit under amended Grapefruit Regulation 67 (§ 905.506); (c) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time; (d) notice hereof in excess of 3 days, the minimum that is prescribed by said section 8e, is given with respect to this import regulation; and (e) such notice is hereby determined, under the circumstances, to be reasonable.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 23,127]

PART 569a—RECEIVERS FOR INSURED INSTITUTIONS OTHER THAN FEDERAL SAVINGS AND LOAN ASSOCIATIONS

SEPTEMBER 18, 1968.

Resolved that, notice and public procedure having been duly afforded (33 F.R. 11844), and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration, determines to amend the Rules and Regulations for Insurance of Accounts to implement the amendment of section 406 of the National Housing Act (12 U.S.C. 1729) contained in the Bank Protection Act of 1968 (Public Law 90-389, 90th Congress, approved July 7, 1968) for the purpose of providing regulations governing the appointment in certain cases of the Federal Savings and Loan Insurance Corporation as Receiver for insured institutions other than Federal savings associations, and regulations governing the operation and termination of receiverships conducted pursuant to such appointment.

Resolved further that, for such purpose, the Federal Home Loan Bank Board hereby amends the Rules and Regulations for Insurance of Accounts by adding a new Part 569a to read as follows, effective September 24, 1968:

Sec.

- 569a.1 Grounds for appointment of Receiver.
- 569a.2 Appointment of Receiver.
- 569a.3 Notice of appointment.
- 569a.4 Possession by Receiver.
- 569a.5 Procedure on taking possession.
- 569a.6 Powers and duties as Receiver.
- 569a.7 Priority of claims.
- 569a.8 Creditor claims.
- 569a.9 Claims of savings account holders.
- 569a.10 Audits.
- 569a.11 Accounting practices; reports.
- 569a.12 Final discharge and release of Receiver.

AUTHORITY: The provisions of this Part 569a issued under secs. 402, 406, 48 Stat. 1256, 1259, as amended; 12 U.S.C. 1725, 1729. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-1948 Comp., p. 1071.

§ 569a.1 Grounds for appointment of receiver.

In the event the Board determines:

(a) That (1) a conservator, receiver or other legal custodian (whether or not the Corporation) has been or is hereafter appointed for an insured institution which is not a Federal savings and loan association other than by the Board (whether or not such institution is in default) and that the appointment of such conservator, receiver, or custodian, or any combination thereof, has been outstanding for a period of at least 15 consecutive days, or (2) an insured institution (other than a Federal savings

and loan association) has been closed by or under the laws of any State, the Commonwealth of Puerto Rico, the territories and possessions of the United States, or any place subject to the jurisdiction of the United States;

(b) That one or more of the grounds specified in paragraph (6) (A) of section 5(d) of the Home Owners' Loan Act of 1933, existed with respect to such institution at the time a conservator, receiver, or other legal custodian was appointed, or at the time such institution was closed, or exists thereafter during the appointment of the conservator, receiver, or other legal custodian or while the institution is closed; and

(c) That one or more of the holders of savings accounts in such institution is unable to obtain a withdrawal of his account, in whole or in part;

the Board shall have exclusive power and jurisdiction to appoint the Corporation as sole Receiver for such institution. As used in this Part, the term "default" means an adjudication or other official determination of a court of competent jurisdiction or other public authority pursuant to which a conservator, receiver, or other legal custodian is appointed for an insured institution for the purpose of liquidation.

§ 569a.2 Appointment of Receiver.

If the Board makes the determinations specified in § 569a.1, the Board will by order appoint the Federal Savings and Loan Insurance Corporation as sole Receiver for such insured institution for the purpose of liquidation, and such appointment may be ex parte and without notice.

§ 569a.3 Notice of appointment.

In the event that the Board appoints a Receiver for an insured institution pursuant to § 569a.2, the Secretary to the Board shall mail a certified copy of the order of appointment by certified mail to the address of the institution as it shall appear on the records of the Board, to any supervisory or regulatory authority to which such institution was theretofore subject, to any previous conservator, receiver, or other legal custodian of any such insured institution, and to any court or other authority to which such previous conservator, receiver, or custodian is subject. Notice of such appointment shall be filed forthwith for publication in the FEDERAL REGISTER.

§ 569a.4 Possession by Receiver.

The Corporation shall take possession promptly of the insured institution for which it has been appointed Receiver by service of a certified copy of the Board's order of appointment upon the insured institution or upon the conservator, receiver, or custodian of such institution. "Service" as used in the preceding sentence is accomplished by leaving a certified copy of said order at the principal office of the insured institution or by handing a certified copy of said order to the conservator, receiver, or custodian of such insured institution or to the officer or employee of the insured institution or of the conservator, receiver, or custodian who shall be in the principal

office of the institution and appears to be in charge of such office. The Receiver shall thereafter promptly notify in writing by certified mail the court or other public authority having jurisdiction over such conservator, receiver, or custodian and any supervisory or regulatory authority to which the insured institution was theretofore subject of its possession of the insured institution. Immediately upon taking possession of any insured institution, the Corporation as Receiver shall forthwith take possession of and title to books, records, and assets of every description of such institution and of all offices of such institution. The Corporation as Receiver, by operation of law and without any conveyance or other instrument, act or deed, shall succeed to (a) all the rights, titles, powers, and privileges of the insured institution, its members, holders of savings accounts and nonwithdrawable accounts, its officers and directors or any of them, and (b) the titles to the books, records, and assets of every description of any conservator, receiver, or other legal custodian of such institution appointed under State law. Such members, holders of savings accounts and nonwithdrawable accounts, officers or directors, or any of them, or any such conservator, receiver, or other legal custodian shall not thereafter have or exercise any such rights, powers, or privileges or act in connection with any asset or property of any nature of the institution in receivership.

§ 569a.5 Procedure on taking possession.

Upon taking possession as provided in the first sentence of § 569a.4, the Receiver shall forthwith

(a) Post a notice in substantially the following form on the door of the principal and other offices of such insured institution:

The _____ is in the
(Name of institution)
hands of the Federal Savings and Loan Insurance Corporation as Receiver under appointment by the Federal Home Loan Bank Board pursuant to law.

FEDERAL SAVINGS AND LOAN INSURANCE
CORPORATION AS RECEIVER.

(Date)

(b) File with the Secretary to the Board a statement that it has taken possession of such institution and of the time of such taking of possession; and such statement shall be conclusive evidence of such taking of possession and of the time of such taking of possession; and

(c) Notify, by certified mail or telegraph, all banks, trust companies, and all other individuals, partnerships, corporations and associations, known to the Receiver to be holding or in possession of any assets of such insured institution that the Federal Savings and Loan Insurance Corporation as Receiver has succeeded to all the rights, titles, powers, and privileges of such institution, and to the titles of any conservator, receiver, or other legal custodian of such institution appointed under State law.

§ 569a.6 Powers and duties as Receiver.

The Receiver shall promptly have an inventory and an audit made, either by an independent Certified Public Accountant or as otherwise directed by the Board, of the assets of such institution as of the date of such taking possession, showing the value as carried on the books of the institution, and the security therefor, if any, in whatever form the same shall exist, with a brief description of each such asset and such security. Such assets may be listed in such groups or classes as shall afford full information as to their character and book value, and a record shall be included of the creditor and other liabilities of the institution. One copy of such inventory shall be filed promptly with the Secretary to the Board, and one copy shall be retained in the principal office for liquidation of the institution, so long as such office is maintained. Subject to such limitations, as are contained in this part—

(a) *General.* The Receiver shall collect all obligations and money due such insured institution, and may:

(1) To an extent consistent with its appointment, do all things desirable or expedient at its discretion to carry on the business of such institution and to preserve and conserve the assets and property of every nature of such institution.

(2) Exercise all rights and powers of such institution, including without any limitation on the generality of the foregoing, any rights and powers under any mortgage, deed of trust, chose in action, option, collateral note, contract, judgment or decree, share or certificate of share of stock, or instrument of any nature;

(3) Institute, prosecute, maintain, defend, intervene and otherwise participate in any and all actions, suits, or other legal proceedings by and against the Receiver or such institution or in which the Receiver, such institution, or its creditors or members, or any of them, shall have an interest, and in every way to represent such institution, its members and creditors;

(4) Employ on a salary or fee basis such personnel as in the judgment of the Receiver is necessary or desirable to carry out its responsibilities and functions, including appraisers and Certified Public Accountants, and pay the costs out of the assets of the receivership;

(5) Employ or retain any attorney or attorneys designated by, or acceptable to, the General Counsel of the Federal Home Loan Bank Board in connection with litigation or otherwise to give legal advice and assistance, for the receivership generally or in particular instances, and pay compensation and retainers of such attorney or attorneys, together with all expenses, including, but not limited to, the costs and expenses of any litigation, as approved by said General Counsel, out of the assets of such receivership;

(6) Execute, acknowledge, and deliver any and all deeds, contracts, leases, assignments, bills of sale, releases, extensions, satisfactions, and other instruments necessary or proper for any pur-

poses, including, without any limitation on the generality of the foregoing, the effectuation, termination, or modification of any sale, lease or transfer of real, personal or mixed property, or that shall be necessary or proper to liquidate or carry on the business of such institution as authorized in subparagraph (1) of this paragraph. Any deed or other instrument executed pursuant to the authority hereby given shall be as valid and effectual for all purposes as if the same had been executed as the act and deed of the institution;

(7) Do such things, and have such rights, powers, privileges, immunities, and duties, whether or not otherwise granted in the rules and regulations of this chapter, as shall be authorized, directed, conferred, or imposed from time to time by the Board.

(b) *Expenditure of funds of the receivership.* The Receiver shall have power to:

(1) Pay all costs and expenses of the receivership as determined by it;

(2) Pay off and discharge taxes and liens;

(3) Pay out and expend such sums as it shall deem necessary or advisable for or in connection with the preservation, maintenance, conservation, protection, remodeling, repair, rehabilitation, or improvement of any asset or property of any nature of such institution or the Receiver;

(4) Pay out and expend such sums as it shall deem necessary or advisable for or in connection with the preservation, maintenance, conservation, or protection of, or pay off and discharge any taxes, assessments, liens, claims, or charges of any nature against, any asset or property of any nature on which the institution or the Receiver has a lien by way of mortgage, deed of trust, pledge, or otherwise, or in which the institution or Receiver has an interest of value of any nature;

(5) Settle, compromise, or obtain the release of, for cash or other consideration, claims and demands against such institution or the Receiver.

(c) *Assets, claims and contracts.* The Receiver shall have power to:

(1) Sell for cash or on terms, exchange, or otherwise dispose of, in whole or in part, any or all of the assets and property of the institution, real, personal and mixed, tangible and intangible, of any nature, including any mortgage, deed of trust, chose in action, bond, note, contract, judgment, or decree, share or certificate of share of stock or debt, owing to such institution or the Receiver;

(2) Surrender, abandon, and release any choses in action, or other assets or property of any nature, whether the subject of pending litigation or not, and settle, compromise, modify, or release, for cash or other consideration, claims and demands in favor of the institution or the Receiver.

(3) Reject or repudiate any lease or contract which it considers burdensome.

Prior to the final acceptance of any offer relating to the disposition of assets or property of any kind having an appraised value in excess of \$25,000, but a book value of less than \$100,000 or where the

transaction involves consideration of more than \$25,000, the Receiver shall publish a notice of such proposed transaction in a newspaper printed in the English language and of general circulation in the city or county in which the home office of the institution is located, inviting interested persons to submit in writing any comments or additional offer no later than 15 days from the date of publication, or such longer period as the Receiver may deem desirable. If no substantive objection from an interested person or additional offer is received, the proposed transaction may be consummated by the Receiver. If such a substantive objection or additional offer is received, such objection or offer shall be considered by the Receiver and a determination shall be made by the Receiver as to the course of action most favorable to the receivership. A written record of each such determination shall be transmitted to the Board. In the discretion of the Receiver any such objection or additional offer may be referred to the Board for decision. With respect to property of any kind having a book value in excess of \$100,000, the Receiver shall submit a recommendation to the Board for approval of the terms of the proposed listing for sale. When an offer is received with respect to such property on terms at least as favorable as those approved by the Board, the Receiver shall publish a notice of such proposed transaction as provided above. If no substantive objection from an interested person or additional offer is received, the proposed transaction may be consummated by the Receiver. If such a substantive objective or additional offer is received, such objection or offer shall be referred to the Board for decision.

(d) *Investment of funds.* The Receiver shall have the power to deposit the monies and funds of the receivership in any bank or banks insured by the Federal Deposit Insurance Corporation or in any Federal Home Loan Bank, and may invest such monies or funds in certificates of deposit in any bank or banks insured by the Federal Deposit Insurance Corporation or in accounts, other than non-withdrawable accounts, in an insured institution or institutions. The Receiver shall have power to invest any funds not currently needed for transacting the business of the receivership or for payment of liquidating dividends in Government obligations with a maturity of not more than 2 years. The Receiver shall have no power to make loans except loans to facilitate the sale of any real estate owned and except loans which it deems necessary to protect investments or the security for investments.

(e) *Borrowing.* With approval of the Board and on terms and conditions approved by the Board, the Receiver may borrow money in any amount and from any source and in any manner, and execute, acknowledge and deliver notes, certificates, and other evidence of indebtedness therefor and secure the repayment thereof by the mortgage, pledge, assignment in trust or hypothecation of any or all of the property, whether real, personal, or mixed, tangible or intangible, of

any nature of such institution or the Receiver, and such borrowing may be for any purpose, including, without any limitation on the generality of the foregoing, facilitating liquidation, carrying on the business of such institution, protection or preserving the assets in its possession, declaring and paying dividends to members and creditors, and providing for the expense of administration and liquidation.

§ 569a.7 Priority of claims.

(a) Claims against the receivership, except for claims specified in paragraphs (b), and (c), and (d) of this section, shall have the following order of priority:

(1) All costs, expenses, and debts of the receivership incurred on or after the date of the appointment of the Receiver;

(2) All claims of creditors, including contractual claims for interest to the date of payment, to the extent that under the laws of the State in which the principal office of the institution in receivership is located such creditor claims are secured by, or constitute a lien on, assets or property of any kind of the institution in receivership;

(3) All claims of general creditors, and the unsecured portion of any creditor obligation under subparagraph (2) of this paragraph, valid as such under the laws of the State in which the principal office of the institution in receivership is located, including contractual claims for interest to the date of default;

(4) All claims of holders of savings accounts, and/or the Federal Savings and Loan Insurance Corporation to the extent it has paid insurance to holders of savings accounts, which under the laws of the State in which the principal office of the institution in receivership is located are given a priority for liquidation purposes over other classes of savings accounts; except that whenever under the laws of the State in which the principal office of the institution in receivership is located such claims are treated on a parity with general creditor obligations upon the liquidation of the institution, such claims will be treated as general creditor obligations under subparagraph (3) of this paragraph;

(5) All claims of holders of other savings accounts, and/or the Federal Savings and Loan Insurance Corporation to the extent it has paid insurance to the holders of such other savings accounts; and

(6) Interest at the rate of 5 per centum per annum from the date of default on the outstanding principal amount of all claims which qualify under subparagraphs (3), (4), and (5) of this paragraph; and if the surplus is not sufficient to pay such post-default interest in full on all claims specified in this subparagraph, the payment of interest shall be made pro rata on all such claims without regard to any priorities as to the payment of principal on said claims.

(b) Creditor claims which have been subordinated in whole or in part to general creditor claims and/or claims of savings account holders shall be given the

priority specified in the instruments establishing such claims. Where the instruments specify that such claims are subordinated to general creditor obligations and the claims of savings account holders upon liquidation of the institution, but are silent with respect to subordination to the post-default interest rights of the general creditors and savings account holders, the payment of interest as set forth in subparagraph (6) of paragraph (a) of this section shall have priority over the principal amount of such subordinated creditor claims and any contractual interest thereon.

(c) In the case of institutions having nonwithdrawable accounts, the claims specified in paragraphs (a) and (b) of this section shall have priority, in the order stated above, over any claims by the holders of nonwithdrawable accounts. If a surplus remains after making distribution in full to prior claimants as set forth in paragraphs (a) and (b) of this section, such surplus shall be distributed to the nonwithdrawable account holders, in accordance with the terms, conditions and priorities specified in the instruments establishing their interests in the institution. If such instruments do not specify the terms, conditions and priorities for liquidation, the distribution of the surplus shall be pro rata.

(d) In the case of a mutual institution, if a surplus remains after making distribution in full as set forth in paragraphs (a) and (b) of this section, such surplus shall be distributed to the savings account holders as of the date of default, in accordance with the terms, conditions and priorities specified in the instruments establishing their interests in the institution. If such instruments do not specify the terms, conditions and priorities for liquidation, the distribution of the surplus shall be pro rata.

(e) All claims of any class described in paragraphs (a) through (d) of this section shall be paid in full, or provision made for such payment, before any claims of lesser priority are paid. If there are insufficient funds to pay any class of claims in full, distribution on such class shall be pro rata. No distribution shall be made under paragraphs (a) (3), (4), (5), and (6), (b), (c), and (d) of this section except upon prior approval of the Board.

§ 569a.8 Creditor claims.

(a) The Receiver shall promptly publish, in a newspaper printed in the English language and of general circulation in the city or county in which the principal office of such institution is located, a notice to all creditors of such institution to present their claims with proof thereof to such Receiver on forms prescribed by the Receiver on or before a date specified in such notice. The date specified in such notice shall be at least 90 days after the date of the first publication of such notice (Sundays and holidays included). Such notice shall be similarly published on dates approximately 1 month and 2 months after the date of such first publication. The Receiver shall mail a

similar notice to any creditor, shown to be such on the books of the institution, at the last address of such creditor as the same shall appear on such books.

(b) Any claim filed on or before the date fixed pursuant to paragraph (a) of this section and proved to the satisfaction of the Receiver shall be allowed by the Receiver. The Receiver may disallow in whole or in part or reject in whole or in part any creditor claim or claims of security, or priority not proved to its satisfaction, and notice of such disallowance or rejection together with the reason therefor shall be served by the Receiver upon the claimant by certified mail. The mailing of notice of such disallowance or rejection to the last known address of any claimant appearing on the books or the proof of claim shall be deemed sufficient for the purposes hereof.

(c) Upon the expiration of the time fixed for the presentation of creditor claims by the notice provided for in paragraph (a) of this section, the Receiver shall file with the Board a list of allowed claims indicating the character of each claim.

(d) The Receiver shall file with the Board from time to time a list of creditor claims filed after the date fixed pursuant to paragraph (a) of this section and a list of creditor claims disallowed by the Receiver pursuant to paragraph (b) of this section. Any such claim may be allowed by the Board in its discretion upon good cause shown.

§ 569a.9 Claims of savings account holders.

The Receiver shall prepare a list of accounts of savings account holders for use by the Corporation in settlement of claims for insurance under Part 564 of this subchapter. Upon such settlement, the Receiver shall furnish to each holder of a savings account a certificate, as to the amount of any such account which is not covered by insurance under said Part 564, that the account holder holds a claim against the receivership which is to be discharged to the extent permitted under this part. No such certificate shall be furnished by the Receiver unless the account holder has first surrendered to the Receiver such evidence of the ownership of the account as he may have or, in case of loss of such evidence, the account holder has agreed that the Receiver shall be entitled to the surrender of such evidence if it is thereafter recovered, but this requirement shall not be applicable in cases in which such evidence has been surrendered theretofore to the Corporation in connection with payment of insurance of the account. In a case where a Receiver has reason to believe that the records of the institution in receivership may not disclose a complete record of all accounts of savings account holders, or in a case where all holders of savings accounts have not presented claims within 1 year from the date of appointment of the Receiver, the Receiver shall publish, in a newspaper printed in the English language and of general circulation in the city or county in which the principal office of such institution was located,

a notice to all savings accountholders to present their claims of ownership thereon on forms prescribed by the Receiver to such Receiver on or before a date specified in such notice, which date shall be 3 years after the date of default. Such notice shall be similarly published on dates approximately 1 month and 2 months after the date of such first publication. Such notice shall be similarly published on a date approximately 1 month prior to the date specified in such notice for presentation of claims of ownership. Claims of ownership not filed within the period stated in the notices shall be disallowed. Any part or all of a claim by a savings accountholder which is filed within the period stated in the notices and which is disallowed by the Receiver may be allowed by the Board in its discretion upon good cause shown.

§ 569a.10 Audits.

Each institution for which a Receiver has been appointed shall be audited at least annually by an independent Certified Public Accountant or as otherwise directed by the Board, and one copy of such audit filed with the Secretary to the Board and one copy retained in the principal office for liquidation of the institution so long as such office is maintained.

§ 569a.11 Accounting practices; reports.

The Receiver may, from time to time, prescribe the accounting practices to be followed. The Receiver shall make an annual report of its affairs as of December 31 of each year to the Board, on forms prescribed by the Board or the Receiver, and such other reports as may be from time to time required by the Board and shall accompany each recommendation for the declaration and payment of a liquidating dividend with a report showing the available assets. One copy of the reports required in this section shall be filed with the Secretary to the Board, one copy shall be retained by the Corporation, and one copy shall be retained in the principal office for the liquidation of the institution, so long as such is maintained.

§ 569a.12 Final discharge and release of Receiver.

(a) *Final report.* At such time as the Receiver shall recommend a final distribution of the assets or at such time as the Receiver shall be otherwise relieved of its duties, the Receiver shall file with the Board a detailed report in form satisfactory to the Board.

(b) *Final discharge.* Upon the final liquidation of the receivership, or the completion of the duties of the Receiver or at such time as the Receiver shall be otherwise relieved of its duties, the Receiver shall have an audit made of the institution in receivership, either by an independent Certified Public Accountant or as otherwise directed by the Board, and such audit shall be filed with the Secretary to the Board. The accounts of the Receiver shall thereupon be approved or disapproved by the Board and, if approved, the Receiver shall there-

upon be given a complete and final discharge and release.

Resolved further that the Board hereby finds that, since the nature of the amendment herein adopted is such that there are no persons who require a reasonable time to prepare for the effective date of said amendment or to take any other action in response to the issuance of such amendment and it is in the public interest that such amendment be effective without delay, there is good cause to make it effective upon publication in the FEDERAL REGISTER, and the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

Title 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of International Commerce, Department of Commerce

SUBCHAPTER B—EXPORT REGULATIONS

[11th Gen. Rev. of Export Regs., Amdt. 10]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Parts 370, 372, 373, 377 and 385 of the Code of Federal Regulations are amended as set forth below.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4487, 3 CFR 1959-1963 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959-1963 Comp.)

Effective date: September 19, 1968.

RAUER H. MEYER,
Director,
Office of Export Control.

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

Subparagraph (1) of paragraph (a) of § 370.2 is hereby revised to read:

§ 370.2 Prohibited exports.

(a) *General provisions.* * * *

(1) Any export to Canada, other than:

(i) The types of technical data described in § 385.4(c) of this chapter; and

(ii) Commodities related to nuclear weapons, nuclear explosive devices, or nuclear testing, as described in §§ 373.7(b) and 385.4(c)(4) of this chapter.

* * * * *

¹ See § 370.3 for shipments to Canada, not intended for consumption in Canada, and regarding the requirement of a Shipper's Export Declaration for certain exports to Canada.

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

Paragraph (b) of § 372.12 is hereby revised to read:

§ 372.12 Reexport.

(b) *Reexport request accompanying license application.* If it is stated on an export license application that the commodity or technical data to be exported is intended for distribution or resale in a country or countries other than the named country of ultimate destination, the validated license will specifically name the country or countries to which distribution or resale is authorized. (See paragraph (c) (2) of this section for special provisions for specified countries.)

(1) *Statement on license.* Authorization will be granted or withheld by an appropriate statement on the face of the validated license, as follows:

(i) "Distribution or resale of the commodities listed above is permitted in the country of ultimate destination only"; or

(ii) "Distribution or resale of the commodities listed above is permitted in (name of country of ultimate destination) and (names of other approved countries)."

(2) *Limitations on reexport authorization.* (1) As indicated in paragraph (c) (2) of this section, the authorization by the Office of Export Control of a reexport from Switzerland or Liechtenstein to any country or a reexport from any country to the specific destinations listed in paragraph (c) (2) (ii) of this section is limited to a specified quantity and to a specified person or firm in the country to which the reexport will be made. Accordingly, where a validated license authorizes distribution or resale from Switzerland or Liechtenstein or distribution or resale in a country listed in paragraph (c) (2) (ii) of this section, such authorization is limited to the specific reexport transaction for that country as described on the related application for export license. In addition, any authorization to reexport or redistribute commodities or technical data to Country Group W, Y, or Z, whether authorized on the validated export license or separately pursuant to paragraph (c) of this section, expires on the last day of the sixth month following the month in which the reexport is authorized unless otherwise specified. The U.S. exporter shall, in connection with each authorization, furnish written notification to the ultimate consignee of this limitation on the validity period of the reexport authorization.

(ii) Requests for authorization to reexport from Switzerland or Liechtenstein to any country or to reexport from any country to the destinations listed in paragraph (c) (2) (ii) of this section, shall be supported by the information and documentation set forth in paragraph (c) (2) of this section.

NOTE: 1. *Destination control statement.* See § 379.10 for requirement for destination control statement on Shipper's Export Declaration, Bill of Lading and commercial invoice covering exports from the United States.

2. *Notice to consignee of distribution and resale authority.* In those cases where the Office of Export Control has disapproved an

authorization request for distribution or resale, in whole or part, it is suggested that the U.S. exporter may wish to advise his foreign consignee of the Office of Export Control decision in advance of the required notification in the form of the Destination Control Statement on the Bill of Lading and commercial invoice.

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

Section 373.69 *Southern Rhodesia* is hereby deleted.

PART 377—TIME LIMIT (TL) LICENSE

Section 377.4 is revised to read as follows:

§ 377.4 Reexports.

(a) Reexport may be made between ultimate consignees named on outstanding TL Licenses, issued to the same licensee, without the necessity of obtaining specific approval from the Office of Export Control. Approval for reexport to other importers in Country Group T may be obtained in accordance with the procedure described below.

(b) Requests for reexport approval may be made either with the license application if the license application contains a statement that the commodity or technical data to be exported is intended for distribution or resale in a country or countries other than the named country of ultimate destination, or subsequent to the issuance of the TL License if the country of distribution or resale is not known at the time the license application is submitted. In order to obtain such approval the procedure on reexports described in § 372.12(b) of this chapter shall be followed. (Reexport or distribution authority does not relieve any person from complying with foreign laws. See §§ 371.4(d), 372.12(f), and 385.6(d) of this chapter.)

PART 385—EXPORTS OF TECHNICAL DATA

1. Subparagraph (2), the introductory text of subparagraph (3), and the introductory text of subparagraph (5) (i) of paragraph (c) of § 385.2 are revised to read as follows:

§ 385.2 General Licenses.

(c) *General License GTDU; unpublished technical data.* * * *

(2) *Destination restrictions.* This general license shall not be applicable to any export of technical data, directly or indirectly, to Country Group S or Z. Only the following technical data may be exported under this general license to Country Group W or Y:

(i) Technical data such as manuals, instruction sheets, or blueprints, provided that the technical data are:

(a) Sent as part of the transaction involving, and directly related to, a commodity licensed for export from the United States to the same consignee and

destination to which the commodity was or will be exported;

(b) Sent no later than one year following the shipment of the commodity to which the technical data are related;

(c) Of a type normally delivered with the commodity;

(d) Necessary to the assembly, installation, maintenance, repair, or operation of the commodity; and

(e) Not related to the production, manufacture, or construction of the commodity.

(ii) Technical data supporting a prospective of actual quotation, bid, or offer to sell, lease, or otherwise supply a commodity, plant, technical data, or service, provided that:

(a) The commodity, plant, technical data, or service, is not (and is not related to) a commodity identified on the Commodity Control list by the symbol "A", or shown on the U.S. Munitions List; and

(b) The technical data are of a type customarily transmitted with a prospective or actual quotation, bid, or offer (in accordance with established business practice); and

(c) The export will not disclose the details of design, production, or manufacture, or the means of reconstruction, of either the quotation item or its product. Similarly, a quotation, bid, or offer for technical data or services must not disclose the technical process involved.

NOTE: Neither this authorization nor its use means that the U.S. Government intends, or is committed, to approve an export license application for any commodity, plant, technical data, or service that may be the subject of the transaction to which such quotation, bid, or offer relates. Exporters are advised to include in any quotations, bids, or offers, and in any contracts entered into pursuant to such quotations, bids, or offers, a provision relieving themselves of liability in the event that an export license (when required) is not approved by the Office of Export Control.

(3) *Restrictions relating to particular types of technical data.* This general license shall not be applicable to technical data relating to the commodities described below in this subparagraph (3). A validated license is required for the export of the types of technical data described in subdivisions (i) and (ii) of this subparagraph (3) to all destinations except Canada. A validated license is required for the export of the type of technical data described in subdivisions (iii) (iv), (v), and (vi) of this subparagraph (3) to all destinations including Canada. Except for the type of technical data described in subdivisions (v) and (vi) of this subparagraph, the limitations set forth in this subparagraph (3) do not apply to the export of operating and maintenance instructional material. In addition, the limitations set forth in this subparagraph (3) do not apply to the export of any technical data included in an application for the foreign filing of a patent, provided such foreign filing of a patent application is in accordance with the regulations of the U.S. Patent Office.

(5) *Requirement of written assurance for certain additional products and des-*

tinations. (i) Except for technical data requiring a written assurance in accordance with the provisions of subparagraph (4) of this paragraph, and except as provided in subdivision (v) of this subparagraph; no export of technical data relating to the commodities described below in this subdivision (i) may be made under the provisions of this General License GTDU, until the U.S. exporter has received a written assurance from the foreign importer that, unless prior authorization is obtained from the Office of Export Control, the importer will not knowingly:

2. Subparagraph (3) of paragraph (c) of § 385.4 is hereby revised to read:

§ 385.4 Export under a validated license.

(c) *Completion of application form and application processing card.* * * *

(3) *Special provisions for certain commodities.* These special provisions are applicable to exports to any destination, except Canada, of the technical data relating to the commodities described in subdivisions (i) and (ii) of this subparagraph. These special provisions are applicable to exports to all destinations, including Canada, of the commodities described in subdivisions (iii) and (iv) of this subparagraph.

(i) Civil aircraft, civil aircraft equipment, parts, accessories, or components not identified by the symbol "B" in the last column of the Commodity Control List (§ 399.1 of this chapter).

(ii) The following electronic commodities not identified by the symbol "B" in the last column of the Commodity Control List (§ 399.1 of this chapter):

(a) Electrical and electronic instruments, Export Control Commodity No. 72952, specially designed for testing or calibrating the airborne direction finding, navigational and radar equipment described in Export Control Commodity No. 72499;

(b) Airborne transmitters, receivers, and transceivers, Export Control Commodity No. 72499;

(c) Airborne direction finding equipment, Export Control Commodity No. 72499; or

(d) Airborne electronic navigation apparatus and airborne radar equipment, Export Control Commodity No. 72499.

(iii) Neutron generators employing the electrostatic acceleration of ions and designed for operation without an external vacuum system, and specially designed parts and accessories for such neutron generators, Export Control Commodity No. 72970.

(iv) Porous nickel.

(v) For all license applications covering technical data relating to any of the commodities in subdivision (i), (ii), (iii), or (iv) of this subparagraph for export to any destination other than Country Group S, W, Y, or Z, an applicant shall attach to the license application a written statement of assurance from his foreign consignee that the technical data will not be reexported directly

or indirectly to any country without prior authorization from the Office of Export Control. The statement shall also show that the direct product¹ produced by use of the technical data will not be exported directly or indirectly to Country Group W, Y, or Z without prior authorization from the Office of Export Control. However, if the U.S. exporter is not able to obtain the required statement, or the consignee is unwilling to furnish assurances with respect to all of the requirements, the exporter may attach an explanatory statement to his license application setting forth the reasons therefor.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-1398]

PART 13—PROHIBITED TRADE PRACTICES

Great Western Stage Equipment Co., Inc., et al.

Subpart—Combining or conspiring: § 13.388 To control allocation and solicitation of customers; § 13.395 To control marketing practices and conditions; § 13.430 To enhance, maintain or unify prices.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Great Western Stage Equipment Co., Inc., et al., Kansas City, Mo., Docket C-1398, Aug. 1, 1968]

In the Matter of Great Western Stage Equipment Co., Inc., a Corporation, Edgar L. Gossage, Individually, and as an Officer of Said Corporation; Metropolitan Stage Equipment, Inc., a Corporation, Donald W. Beck and Carl W. Winther, Individually, and as Officers of Said Corporation

Consent order requiring two Midwestern stage equipment companies to cease conspiring to fix price for their products and allocate territories and customers.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

¹ The term "direct product" used in this sentence and in this context only, is defined to mean the immediate product (including processes and services) produced directly by use of the technical data. The coverage of the term does not extend to the results of the use of such "direct product." For example, if the technical data relate to the design of a new or improved airborne transmitter, the airborne transmitter produced from such data is a direct product of the data. However, if the technical data relate to the design of equipment which will be used for the production of airborne transmitters, then the equipment rather than the transmitter is the direct product of the technical data.

It is ordered, That each of the respondents Great Western Stage Equipment Co., Inc., a corporation, and Metropolitan Stage Equipment, Inc., a corporation, their subsidiaries, successors, assigns, officers or directors, Edgar L. Gossage, individually, and as an officer of Great Western Stage Equipment Co., Inc., Donald W. Beck and Carl W. Winther, individually, and as officers of Metropolitan Stage Equipment, Inc., and said respondents' agents, representatives, or employees, directly or through any corporate or other device, in connection with the offering for sale, sale, distribution or installation of stage curtains, draperies, curtain tracks, rigging hardware, stage lighting equipment or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, forthwith cease and desist from entering into, maintaining, effectuating, carrying out, cooperating in or continuing any agreement, understanding, combination, conspiracy or planned common course of action or course of dealing between the said respondents or between one or more of the said respondents and one or more of any others not parties hereto, to do or perform any of the following:

1. Allocating territories by any means or methods including, but not limited to, the following:

(a) Agreeing not to compete for the business of prospective, potential, or actual purchasers in any designated area.

(b) Agreeing not to solicit the business of prospective, potential, or actual purchasers in any designated area.

2. Allocating customers by any means or methods including, but not limited to the following:

(a) Agreeing not to compete for the business of any designated prospective, potential, or actual purchasers.

(b) Agreeing not to solicit the business of any designated prospective, potential, or actual purchasers.

3. Establishing, fixing or maintaining prices by any means or methods including, but not limited to the following:

(a) Exchanging in any manner information concerning prices, pricing methods, terms or conditions of sale at which any product is to be offered for sale to, sold to, or installed for any third party: Provided, however, That it shall be a defense in any enforcement proceeding instituted for violation of this provision for the respondents to establish that any challenged exchange of information solely involved bona fide negotiations for the purchase of products by one respondent from another respondent.

(b) Submitting noncompetitive, collusive or rigged bids or quotations for selling any product to, or installing any product for, any third party, or both.

It is further ordered, That respondents Great Western Stage Equipment Co., Inc., a corporation, its subsidiaries, successors, assigns, officers or directors, and Edgar L. Gossage, individually and as an officer of Great Western Stage Equipment Co., Inc., and said respondents' agents, representatives or employees, directly or through any corporate or other device, in connection with

any transaction involving any public body or any other prospective or potential purchaser upon a competitive bidding basis where such public body or any other prospective or potential purchaser is located inside the State of Missouri, do forthwith cease and desist from preparing or participating in the preparation of terms or specifications of any invitation for bids to be issued by any such public body or other prospective or potential purchaser located inside the State of Missouri with the purpose or effect of denying respondents' competitors fair opportunity to submit competitive bids, or of hindering, preventing or precluding respondents' competitors from bidding competitively on such invitation for bids if any of the products designated in such specifications are manufactured, processed or packaged outside the State of Missouri.

It is further ordered, That respondents Great Western Stage Equipment Co., Inc., a corporation, its subsidiaries, successors, assigns, officers or directors, and Edgar L. Gossage, individually and as an officer of Great Western Stage Equipment Co., Inc., and said respondents' agents, representatives or employees, directly or through any corporate or other device, in connection with any transaction involving any public body or any other prospective or potential purchaser upon a competitive bidding basis where such public body or any other prospective or potential purchaser is located outside the State of Missouri, do forthwith cease and desist from preparing or participating in the preparation of terms or specifications of any invitation for bids to be issued by any such public body or other prospective or potential purchaser located outside the State of Missouri with the purpose or effect of denying respondents' competitors fair opportunity to submit competitive bids, or of hindering, preventing or precluding respondents' competitors from bidding competitively on such invitation for bids.

It is further ordered, That for a period of 3 years commencing from the date of acceptance of this agreement by the Commission, respondent Great Western Stage Equipment Co., Inc., its successors or assigns, shall file with the Commission a special report each year on the anniversary of the date of acceptance of this agreement by the Commission, or on the next business day thereafter. Said special report will identify each stage equipment installation project on which a bid was submitted by respondent Great Western Stage Equipment Co., Inc., its successors or assigns, or by any officer, agent, representative or employee thereof during the period under report, and with respect to each said project will indicate: (a) Whether respondent Great Western Stage Equipment Co., Inc., its successors or assigns, or any officer, agent, representative or employee thereof participated in the preparation of specifications in any way, (b) How many companies submitted bids, if known, (c) Whether the bids were made public and, if so, what the amount of each bid was, and (d) Which company was awarded the contract, if known.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: August 1, 1968.

PART 13—PROHIBITED TRADE PRACTICES

Jagan N. Sharma and Kashmir Imports

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Jagan N. Sharma trading as Kashmir Imports, Venice, Calif., Docket C-1400, Aug. 5, 1968]

Consent order requiring a Venice, Calif., importer of wearing apparel to cease marketing dangerously flammable products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the respondent Jagan N. Sharma, an individual trading as Kashmir Imports, or under any other name, and respondent's representatives, agents, and employees, directly or through any corporate or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting, or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product as "commerce" and "product" are defined in the Flammable Fabrics Act as amended, which fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act.

It is further ordered, That the respondent herein shall, within ten (10) days after service upon him of this order, file with the Commission an interim special report in writing setting forth the respondent's intention as to compliance with this order. This interim special report shall also advise the Commission fully and specifically concerning the identity of the product which gave rise to the complaint, (1) the amount of such product in inventory, (2) any action taken to notify customers of the flammability of such product and the results thereof and (3) any disposition of such product since August 29, 1967. Such report shall further inform the Commission whether respondent has

in inventory any fabric, product or related material having a plain surface and made of silk, rayon, or cotton or combinations thereof in a weight of 2 ounces or less per square yard of fabric with a raised surface made of cotton or rayon or combinations thereof. Respondent will submit samples of any such fabric, product or related material with this report. Samples of the fabric, product, or related material shall be of no less than 1 square yard of material.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form of his compliance with this order.

Order requiring a large catalog retailer of Chicago, Ill., to cease making fictitious pricing and savings claims in the sale of its merchandise.

The order to cease and desist is as follows:

It is ordered, That respondent Spiegel, Inc., a corporation, and its officers, and respondent's agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of bedspreads, quilts, blankets, or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act do forthwith cease and desist from:

1. Representing, directly or by implication, that any price is respondent's former or usual price for said products when such amount is in excess of the actual, bona fide price at which respondent offered or sold the said products to the public for a reasonably substantial period of time in the recent, regular course of business.

2. Representing, directly or by implication, through the device of a \$1 sale, or in any other manner, that a stated number of units of respondent's merchandise may be purchased for the price of one or more units, plus \$1, or any other amount, when the price of the unit or units required to be purchased is in

excess of the actual, bona fide price at which respondent offered or sold the said merchandise to the public for a reasonably substantial period of time in the recent, regular course of its business.

(3) Misrepresenting, in any manner, the savings available to purchasers of respondent's merchandise.

By "Final Order" further order requiring report of compliance is as follows:

It is further ordered, That respondent Spiegel, Inc., shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

CALCIUM DISODIUM EDTA

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 8A2296) filed by E. D. Smith & Sons, Ltd., Winona, Ontario, Canada, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of calcium disodium EDTA as a color stabilizer in artificially colored lemon-flavored and orange-flavored spreads. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1017(b)(1) is amended by alphabetically inserting in the table a new item, as follows:

§ 121.1017 Calcium disodium EDTA.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-346; Order 367]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Area Price Levels for Natural Gas Sales by Independent Producers

SEPTEMBER 17, 1968.

Independent producers of natural gas; approving the 14.73 p.s.i.a. pressure base standard of measurement and amending tables of area rate price levels; Docket No. R-346.

By this order the Commission amends § 2.56 of its Statements of General Policy and Interpretations Under the Natural Gas Act, promulgated by Title 18, Part 2, of the Code of Federal Regulations. The amendments will adopt and establish the 14.73 p.s.i.a. pressure base as a stand-

ard of measurement for determining area prices under § 2.56 and will amend, in accordance with that standard, the statements of area rate price levels therein prescribed by paragraph (a) table 1, paragraph (c) table 2, and paragraph (d) table 3.

The Commission believes that the use of a standard 14.73 p.s.i.a. pressure base and the adjustment of area rate price levels to the nearest one-hundredth of a cent as provided in this order are desirable and that by facilitating a uniform method of gas measurement the adoption of such a standard pressure base will result in more efficient administration of the Commission's gas statistical and accounting activities.

The order also specifies the conversion factors to be used in converting to the newly prescribed 14.73 pressure base standard and further provides that in applying this standard to rate determination the rounding to the nearest one-hundredth of a cent will be permitted. The Commission is convinced that resultant effect of this rounding method on rates will be de minimis.¹

The Commission finds: Adoption of the statement of policy established by this order is necessary and appropriate for administration of the Natural Gas Act, and in view of the fact that the statement does not prescribe any course of action on the part of any person and it will not penalize or place any person or class of persons in a disadvantageous position, but merely sets forth the Commission's contemplated course of action, compliance with the notice, public procedure and effective date provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) is not required.

The Commission, acting pursuant to authority granted by the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16 thereof (52 Stat. 822, 823, 824, 830; 15 U.S.C. 717c, 717d, 717f, 717o), orders:

(A) Effective upon the issuance of this order, paragraph (b), subparagraphs (1) and (2) and paragraph (c), subparagraph (2) of § 2.56, Part 2, Statements of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, are amended as follows:

§ 2.56 Area price levels for natural gas sales by independent producers.

(b) * * *

(1) Accordingly, the Commission provides that: For rate schedules from which all price escalation clauses are being eliminated except for provisions for

¹ Based upon the assumptions that the difference between 1966 and 1965 sales volumes was new or initial service volumes per year and that one-fifth of the 1965 volumes was the maximum of increased volumes in 1 year, rounding initial rates to the nearest one-hundredth cent would reduce producers' revenues an estimated \$5,300 annually overall and with respect to increased rates would result in an estimated \$17,000 annual increase of revenues.

future changes in tax reimbursement, the area price level for increased rates for natural gas sales by independent producers in Texas District Nos. 2, 3, 4, and 6 is 15.08 cents per Mcf at 14.73 p.s.i.a. (15 cents per Mcf at 14.65 p.s.i.a.), including tax reimbursement.

(2) For rate schedules from which all price escalation clauses are being eliminated except for periodic escalation provisions as specified below and provisions for future changes in tax reimbursement, the area price level for increased rates for natural gas sales by independent producers in Texas District Nos. 2, 3, 4, and 6 is 14.68 cents per Mcf at 14.73 p.s.i.a. (14.6 cents per Mcf at 14.65 p.s.i.a.), including tax reimbursement: *Provided, however,* That such revised rate schedules may contain escalation clauses providing future separate increases in rate not in excess of 1.01 cents per Mcf at 14.73 p.s.i.a. (1 cent per Mcf at 14.65 p.s.i.a.), the first such escalation not to be tendered for filing prior to the effective date of the 14.68 cents rate and subsequent escalations to be effective under the contract at not less than 5-year intervals thereafter.

(c) * * *

(2) For rate schedules from which all price escalations are being eliminated except for periodic escalation provisions as hereinafter specified and provisions for future changes in tax reimbursement, the area price level for increased rates for natural gas sales by independent producers from the various areas covered herein is set forth in Column A of Table No. 2: *Provided, however,* That such revised rate schedules may contain escalation clauses providing future separate increases in rate not in excess of 1.01 cents per Mcf at 14.73 p.s.i.a. (1 cent per Mcf at 14.65 p.s.i.a.), the first such escalation not to be effective under the contract prior to November 1, 1968, and subsequent escalations to be effective under the contract at not less than 5-year intervals thereafter.

(B) Effective upon the issuance of this order, Table Nos. 1, 2, and 3, referred to, respectively, in paragraphs (a), (c), and (d) of § 2.56, Part 2, Chapter I of Title 18 of the Code of Federal Regulations are amended as indicated in Attachments A, B, and C, respectively.

(C) Effective upon the issuance of this order, § 2.56, Part 2, Chapter I of Title 18 of the Code of Federal Regulations is amended by adding thereto a new paragraph (e), as follows:

(e) For purposes of computing any area rate adjustments effectuated pursuant to this section, the following conversion factors with the results rounded

to the nearest one-hundredth of a cent, shall be used in converting to the 14.73 p.s.i.a. pressure base prescribed herein:

From 14.65 p.s.i.a. to 14.73 p.s.i.a. 1.00546
From 15.025 p.s.i.a. to 14.73 p.s.i.a. 0.98037
From 15.325 p.s.i.a. to 14.73 p.s.i.a. 0.96117

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

Secretary.

Parker River National Wildlife Refuge, Mass.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Public hunting of ducks, geese (except snow geese), brant, and coots on the Parker River National Wildlife Refuge, Mass., is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 1,085 acres, and known as the Pine Island Hunting Area, Parker River Hunting Area, Nelson's Island Hunting Area, and the Youth Hunting Area, are delineated on maps available at refuge headquarters, Newburyport, Mass., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and

Courthouse, Boston, Mass. 02109. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, brant, and coots, subject to the following special conditions:

(1) The number of hunters on the Pine Island Area will be limited to 25 each day, Parker River Area to 50 each day, and the Nelson's Island Area to 50 each day. Participation will be on a first-come, first-serve basis from Monday through Friday, except holidays. Participation on Saturdays and holidays will be by advance permit.

(2) The Youth Hunting Area will be open during the regular State waterfowl season for Young Waterfowl trainees on selected Saturdays in October and November under the provisions and limitations of this special program. Literature describing this program is also available.

The provisions of this special regulation supplement the regulations governing hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 10, 1969.

PART 32—HUNTING

Brigantine National Wildlife Refuge, N.J.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

NEW JERSEY

BRIGANTINE NATIONAL WILDLIFE REFUGE

Public hunting of waterfowl and coots on the Brigantine National Wildlife Refuge, N.J., is permitted during established State and Federal waterfowl seasons on the areas designated by signs as open to hunting.

These open areas are delineated as hunting Units 1, 2, and 3 on maps available at Refuge Headquarters, Oceanville, N.J., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

Hunting shall be in accordance with applicable State and Federal regulations covering the hunting of waterfowl and coots subject to the following special conditions:

(1) Public hunting on Unit 3 during the period beginning with the opening

of the waterfowl hunting season through the fifth Saturday in the duck hunting season is restricted to Tuesdays.

(2) A special Young Waterfowler Training Program will be conducted on Unit 3 on selected Saturdays from 30 designated blind sites.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, as set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 30, 1969.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 46]

PERISHABLE AGRICULTURAL COMMODITIES

License Fee

Notice is hereby given that the U.S. Department of Agriculture is considering a revision of § 46.6 of the regulations (other than rules of practice) (7 CFR 46.1-46.44) effective under the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531, et seq., as amended; 7 U.S.C. 499a et seq.).

Statement of considerations leading to the proposed revision. This Act is designed to prevent unfair and fraudulent practices of persons engaged in the business of marketing fresh or frozen fruits and vegetables or cherries in brine in interstate or foreign commerce. All persons engaged in business subject to the Act are required to be licensed.

The cost of administering this Act, except for the cost of legal services, is financed entirely by the annual license fees.

The Act, as amended October 1, 1962, authorizes the Secretary of Agriculture to fix the license fee at such amount not to exceed \$50, as he deems necessary to meet reasonably anticipated expenses for administering the Act. The Secretary shall give public notice of any increase to be made in the annual fee and shall allow a reasonable time prior to the effective date of such increase for interested parties to file their views relative to such increase.

The source of funds for administration of the Act has been shrinking steadily in recent years due to a decline in the number of firms operating subject to the Act. For example, the number of firms licensed under the Act declined from an all-time high of over 27,000 in 1956 to 22,148 on January 1, 1965, when the present license fee rate of \$42 per year became effective. Since that time there has been a further decline, with 19,673 licenses currently in effect. This trend is expected to continue.

The caseload of complaints handled under the Act, however, has remained stable and operating costs have been increasing. Even though a reduced number of employees is engaged in administration of the Act, recent increases in expenses have resulted in the PACA Fund operating at a deficit during the past fiscal year.

Because the present license fee of \$42 per year is not producing sufficient revenue to meet current administrative expenses, it is proposed, in order to assure continued effective administration of the

Act, to increase the annual license fee to \$50, effective January 1, 1969.

All persons who desire to submit written data, views, or comments concerning the proposed increase in the fee should file the same, in quadruplicate, with the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed revision of § 46.6 reads as follows:

§ 46.6 License fee.

The annual fee is fifty dollars (\$50). The Director may require the fee be submitted in the form of a money order, bank draft, cashier's check, or certified check made payable to Consumer and Marketing Service. Authorized representatives of the Division may accept fees and issue receipts therefor.

Done at Washington, D.C., this 18th day of September 1968.

Deputy Administrator,
Regulatory Programs.

OPERATION OF CERTAIN AIRPLANES IN CONTROLLED AIRSPACE UNDER IFR

Withdrawal of Notice of Proposed Rule Making

The Federal Aviation Administration has had under consideration a proposal to amend Part 91 of the Federal Aviation Regulations, to require certain types of operators and classes of airplanes to operate under Instrument Flight Rules when in controlled airspace in the 48 contiguous States and the District of Columbia. The proposal was published in the FEDERAL REGISTER (32 F.R. 21039) on December 30, 1967, and circulated to the public as Notice 67-55.

Interested persons were afforded an opportunity to participate in the proposed rule making through submission of comments. The majority of comments received were in opposition to the proposed rule.

After giving due consideration to all relevant matter presented in response to the notice of proposed rule making, the FAA has concluded that pending further study and consideration the proposal should be withdrawn.

Withdrawal of this notice constitutes only such action and does not preclude the FAA from issuing other notices in the future or commit the FAA to any course of action in the future.

In consideration of the foregoing, the notice of proposed rule making entitled "Operation of Certain Airplanes in Controlled Airspace", and circulated as Notice 67-55 is hereby withdrawn.

This withdrawal is made under the authority of sections 307 and 313 of the Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1354).

Issued in Washington, D.C., on September 13, 1968.

WILLIAM M. FLENER,
Acting Director, Air Traffic Service.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-8405]

NET CAPITAL REQUIREMENTS FOR BROKERS AND DEALERS

Treatment of "Failed To Deliver" Account

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to amend Rule 15c3-1 (17 CFR 240.15c3-1) under the Securities Exchange Act of 1934 ("the Act"). Rule 15c3-1 (17 CFR 240.15c3-1) imposes specified financial responsibility requirements on brokers and dealers. The proposed amendments to the rule would require a broker or dealer in computing his net capital to deduct from net worth amounts equal to specified percentages of the contract prices of securities in the failed to deliver account, in accordance with a formula based upon the age of the items in that account. The proposed amendments would also withdraw the exemption provided for in paragraph (b)(2) of Rule 15c3-1 (17 CFR 240.15c3-1) now available to members of specified national securities exchanges if the financial responsibility rules of such exchanges fail to require in the computation of net capital deductions from net worth which are at least comparable. The action would be taken under the provisions of the Securities Exchange Act of 1934, and

particularly sections 15(c) (3) and 23(a) thereof.

The Commission has expressed its concern over the acute delivery backlogs confronting the securities industry, including the difficulties certain broker-dealers are experiencing in carrying out their responsibilities to customers to deliver securities and money promptly (see Securities Exchange Act of 1934 Release No. 8341, June 20, 1968).

This current acute condition respecting delays in deliveries of securities to customers by selling broker-dealers is in large part a reflection of the failure of other brokers and dealers to deliver those securities which they owe to the selling broker-dealers. In result, the "failed to deliver" accounts of such selling broker-dealers contain numerous items which remain outstanding for substantial lengths of time. When items remain in the failed to deliver account of a broker-dealer for inordinate lengths of time, he becomes exposed to the risk of fluctuations in the market value of the securities covered by the open items. He also runs the hazard that the broker-dealer on the other side of the transaction might experience financial difficulties. These exposures create and increase a strain on such broker-dealer's financial condition. Among other steps taken by various segments of the securities industry to deal constructively with problems associated with back office and delivery backlogs, the New York Stock Exchange and American Stock Exchange, in recognition of these related risks, have recently adopted rules on the subject of the net capital requirements applicable to their members which call for the application of deductions from net worth in the computation of net capital of amounts based upon various percentages of contract prices of securities covered by open items in their failed to deliver

accounts, depending upon the age of each item. Correspondingly, the proposed amendments to Rule 15c3-1 (17 CFR 240.15c3-1) would add a new subdivision to paragraph (c) (2) of the rule by requiring that in computing net capital a broker-dealer must deduct from his net worth 10 percent of the contract price of each item in the securities failed to deliver account which is outstanding 40 to 49 calendar days; 20 percent of the contract price of each item in the securities failed to deliver account which is outstanding 50 to 59 calendar days; and 30 percent of the contract price of each item in the securities failed to deliver account which is outstanding 60 or more calendar days. These provisions are the same as those adopted by the exchanges. To maintain appropriate uniformity in this area, moreover, the proposed amendments would withdraw the exemption of Rule 15c3-1 in paragraph (b) (2) (17 CFR 240.15c3-1(b)(2)) from members of any of the specified national securities exchanges which do not provide for corresponding deductions from net worth in the computation of net capital.

Commission Action. I. In § 240.15c3-1 of Chapter II of Title 17 of the Code of Federal Regulations, subparagraph (2) of paragraph (b) will be amended by adding to the end thereof, a sentence to read as set forth below.

II. In § 240.15c3-1 of Chapter II of Title 17 of the Code of Federal Regulations, a new subdivision (ix) will be added to subparagraph (2) of paragraph (c) and will read as set forth below.

The text of the proposed changes reads as follows:

§ 240.15c3-1 Net capital requirements for brokers and dealers.

* * * * *

(b) * * *

(2) * * * This exemption shall not be available to the members of any ex-

change whose capital rules do not provide that in the computation of net capital there shall be a deduction of not less than 10 percent of the contract price of each item in the securities failed to deliver account which is outstanding 40 to 49 calendar days; 20 percent of the contract price of each item in the securities failed to deliver account which is outstanding 50 to 59 calendar days; and 30 percent of the contract price of each item in the securities failed to deliver account which is outstanding 60 or more calendar days.

(c) * * *

(2) * * *

(ix) Deducting 10 percent of the contract price of each item in the securities failed to deliver account which is outstanding 40 to 49 calendar days; deducting 20 percent of the contract price of each item in the securities failed to deliver account which is outstanding 50 to 59 calendar days; and deducting 30 percent of the contract price of each item in the securities failed to deliver account which is outstanding 60 or more calendar days.

(Secs. 15(c) (3) and 23(a), 52 Stat. 1075, 48 Stat. 901, as amended, sec. 203(a), 49 Stat. 1379, 15 U.S.C. 78o and 78w)

All interested persons may submit their views and comments on the above proposals in writing to the Securities and Exchange Commission, Washington, D.C. 20549, on or before October 20, 1968. All such communications will be available for public inspection.

By the Commission.

STEEL BARS, REINFORCING BARS, AND SHAPES FROM AUSTRALIA

Antidumping Proceeding Notice

SEPTEMBER 17, 1968.

On May 3, 1968, information was received indicating a possibility that steel bars, reinforcing bars, and shapes manufactured by The Broken Hill Proprietary Co., Ltd., Melbourne, Australia, are being, or likely to be, sold at less than fair value within the meaning of the Anti-dumping Act, 1921, as amended (19 U.S.C. 160 et seq.). This information is in proper form pursuant to §§ 53.26 and 53.27 of the Customs Regulations (19 CFR 53.26, 53.27).

The information was submitted by Oregon Steel Mills, Portland, Ore.

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 53.29 of the Customs Regulations (19 CFR 53.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows: The information received tends to indicate that the prices for home consumption are higher than the prices of the merchandise sold for exportation to the United States.

This notice is published pursuant to § 53.30 of the Customs Regulations (19 CFR 53.30).

MEDIUM DENSITY BOARD

Approval of Classification Practice

SEPTEMBER 18, 1968.

On September 11, 1967, pursuant to the provisions of section 516(b), Tariff Act of 1930, as amended, the Weyerhaeuser Co., of Tacoma, Wash., an American manufacturer of medium density board, was informed of the practice of classifying medium density board under the provision for building boards not specially provided for, whether or not face

finished: Other boards, of vegetable fibers, in item 245.90, Tariff Schedules of the United States (TSUS), with duty at the rate of 4 percent ad valorem, if manufactured in a country entitled to the column 1 rates of duty. The rate of duty currently applicable is 3 percent ad valorem.

In a complaint received on May 23, 1968, the domestic manufacturer took exception to this practice expressing its belief that the medium density board is properly classifiable as hardboard under items 245.00, 245.10, 245.20, or 245.30, Tariff Schedules of the United States, at a rate depending upon value and whether or not face finished.

On July 17, 1968, the domestic manufacturer was advised that its complaint had been considered and that the Bureau remained of the opinion that the practice of classifying the medium density board under item 245.90, Tariff Schedules of the United States, is correct.

In accordance with the provisions of section 516(b), Tariff Act of 1930, as amended, notice is hereby given that the name domestic manufacturer has given the notice contemplated by the statute that it desires to protest the classification of medium density board. However, under section 516(b), Tariff Act of 1930, as amended, the practice will be continued so long as no decision of the U.S. Customs Court or the U.S. Court of Customs and Patent Appeals not in harmony with this decision is published.

WHITE OR IRISH POTATOES, OTHER THAN CERTIFIED SEED

Tariff-Rate Quota

SEPTEMBER 17, 1968.

The tariff-rate quota for white or Irish potatoes, other than certified seed, pursuant to item 137.25, Tariff Schedules of the United States, for the 12-month period beginning September 15, 1968, is 45 million pounds.

The estimate of the production of white or Irish potatoes, including seed potatoes, in the United States for the calendar year 1968, made by the U.S. Department of Agriculture as of September 1, 1968, was 28,353,300,000 pounds.

In accordance with headnote 2, part 8A of schedule 1, Tariff Schedules of the United States, the quantity is not increased because the estimated production is greater than 21 billion pounds.

INPATIENT HOSPITAL DEDUCTIBLE FOR 1969

Notice of inpatient hospital deductible for 1969 under Part A of Title XVIII of the Social Security Act.

Pursuant to authority contained in section 1813(b)(2) of the Social Security Act (42 U.S.C. 1395e(b)(2)), as amended, I hereby determine and announce that the dollar amount which shall be applicable for the inpatient hospital deductible, for purposes of section 1813(a) of the Act, as amended, shall be \$44 in the case of any spell of illness beginning during 1969.

There follows a statement of the actuarial bases employed in arriving at the amount of \$44 for the inpatient hospital deductible for the calendar year 1969 (as contrasted with the figure of \$40 applicable for the period from July 1966 through December 1968). Certain other cost-sharing provisions under the Hospital Insurance program are also affected by changes in the amount of the inpatient hospital deductible.

The law provides that, for calendar years after 1968, the inpatient hospital deductible shall be equal to \$40 multiplied by the ratio of (1) the current average per diem rate for inpatient hospital services for the calendar year preceding the year in which the promulgation is made (in this case, 1967) to (2) the current average per diem rate for such services for 1966. The law further provides that, if the amount so determined is not an even multiple of \$4, it shall be rounded to the nearest multiple of \$4. Further, it is provided that the current average per diem rates referred to shall be determined by the Secretary of Health, Education, and Welfare from the best available information as to the amounts paid under the program for inpatient hospital services furnished during the year by hospitals who are qualified to participate in the program, and for whom there is an agreement to do so, for individuals who are entitled to benefits as a result of insured status under the Old-Age, Survivors, and Disability Insurance program or the Railroad Retirement program.

The data available to make the necessary computations of the current average per diem rates for calendar years 1966 and 1967 are derived from individual inpatient-hospital bills that are recorded on a 100 percent basis in the records of the program. These records show, for each bill, the total inpatient days of care, the interim reimbursement amount, and the total cost (the sum of interim reimbursement, deductible, and coinsurance). With respect to reimbursements to

the hospitals by the program, no allowance is made for adjustments with the providers of services that may be made after their fiscal years are ended. There is currently no significant information available to modify the data for the effect of such adjustments, but it is believed that, since a relative comparison is made of one year with another, this factor is largely self-compensating and would have no appreciable effect on the final results.

Each individual bill is assigned both an initial month and a terminal month, as determined from the first day covered by the bill and the last day so covered. Insofar as the initial month and the terminal month fall in the same calendar year, no problems of classification occur.

Two tabulations are prepared, one summarizing the bills with each assigned to the year in which the period it covers begins, and the other summarizing the same bills with each assigned to the year in which the period it covers ends. The true value with respect to the costs for a given year on an accurate accrual basis should fall between the amount of total costs shown for bills beginning in that year and the amount shown for bills ending in that year.

The current average per diem rate for inpatient hospital services for calendar year 1966, on the basis described, is \$37.95, while the corresponding figure for calendar year 1967 is \$43.03. It may be noted that these averages are based on about 29 million days of hospitalization in 1966 and 59 million days of hospitalization in 1967. Accordingly, the ratio of the 1967 rate to the 1966 rate is 1.134. When this ratio is multiplied by \$40, it produces an amount of \$45.36, which must be rounded down to \$44. Accordingly, the inpatient hospital deductible for spells of illness beginning during calendar year 1969 is \$44.

Dated: September 18, 1968.

FLORIDA POWER & LIGHT CO.

Order Convening and Designating Place for Further Hearing

On August 4, 1967, the Atomic Energy Commission remanded this proceeding to the Atomic Safety and Licensing Board to conduct further proceedings to receive additional evidence with regard to proposed alternative engineered safeguards as well as further on-site meteorological data and evidence as to controls and property within the proposed exclusion area. Since the date of that remand, Florida Power & Light Co. (Turkey Point Nuclear Generating Units No. 3 and No. 4) has prepared additional data which were submitted on March 11, 1968, for filing in this case. The Staff of the Commission referred the data to the Advisory Committee on Reactor Safeguards which issued its report on May 15, 1968, following which a Supplementary Safety Evaluation by the Regulatory Staff was issued on July 12, 1968. Since that time, the Atomic Safety and Licensing Board has endeavored to select a mutually convenient hearing date.

The Board has concluded that a further hearing should be held in order to conduct the further proceedings to receive evidence on the foregoing matters.

Wherefore, it is ordered, Pursuant to the remand of the Atomic Energy Commission, that a hearing shall convene at 10 a.m. on Tuesday, October 22, 1968, in Room 804 of the Federal Building at

51 Southwest First Avenue, Miami, Fla., to receive the foregoing evidence.

CIVIL AERONAUTICS BOARD

[Docket No. 18659; Order 68-9-77]

MOHAWK AIRLINES, INC.

Order Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of September 1968.

On June 9, 1967, Mohawk Airlines, Inc. (Mohawk), filed an application requesting the amendment of its certificate of public convenience and necessity for route 94 so as to authorize it to engage in air transportation of persons, property, and mail between the terminal point Buffalo/Niagara Falls, N.Y. (Buffalo), and the terminal point Minneapolis/St. Paul, Minn. (Twin Cities).¹ On April 30, 1968, Mohawk filed a motion for an "expedited" hearing on its application (i.e., one out of normal turn) pursuant to § 399.60 of the Board's policy statements.

In support of its motion Mohawk contends that recent traffic survey data, which were not available when Mohawk previously requested expedited action, disclose that its earlier traffic forecast was understated. According to Mohawk, the latest available O&D data show a "substantially increased rate of growth in the markets for which Mohawk has proposed single-plane service."² If the more recent growth rates are used in projecting the traffic, Mohawk claims that its service proposal will benefit 78,000 passengers and generate approximately \$4.3 million in revenues.³ Mohawk also

¹ Mohawk also filed an application in Docket 18660 requesting the Board to issue a show cause order proposing amendment of its certificate to authorize service between Buffalo and the Twin Cities. This request was denied by the Board on findings that the markets Mohawk proposed to serve were not of such magnitude as to warrant immediate nonhearing action by the Board and that serious questions had been raised regarding the attainability of Mohawk's traffic estimates. Order E-26643, Apr. 10, 1968.

² Mohawk proposes single-plane service and forecasts traffic in five Twin Cities markets: Buffalo, Rochester, Syracuse, Albany, and Hartford.

³ Mohawk's original estimate projected 44,000 passengers, \$2.5 million total revenues, and a subsidy need reduction of \$311,000. This estimate included approximately 1,900 on-line connecting passengers in upstate New York-Twin Cities markets. Mohawk's revised estimate increases the traffic projection in the five markets to receive single-plane service by 30,480 passengers, which in turn produces \$1.8 million in additional revenues. The revised estimate made no adjustments in indirect costs or subsidy need reduction related to the additional traffic.

points out that United Air Lines has discontinued single-plane service in the Rochester/Buffalo-Twin Cities markets.⁴

Mohawk's motion is supported by the New York State Department of Transportation.⁵ Northwest filed an answer in opposition to Mohawk's motion and a motion to consolidate its own application filed in Docket 19876. Pursuant to Rule 4(f) of the Board's rules of practice, Mohawk filed a motion for leave to file an otherwise untimely document, an answer in opposition to Northwest's motion to consolidate. American filed an answer in opposition to Northwest's motion.

Upon consideration of the foregoing, the Board has decided to set Mohawk's application for hearing. Its motion is supported by factual and economic data that satisfy the standards for determining relative priorities for assigning applications for hearing set forth in § 399.60(b) of the Board's regulations. Mohawk proposes nonstop service in the Buffalo-Twin Cities market and intends to introduce first single-plane and first single-carrier service in several other key upstate New York-Twin Cities markets that, *prima facie*, appear to have substantial traffic-generating potential. Finally, Mohawk's economic analysis indicates that the proposed service holds promise for subsidy need reduction that should be explored in a full evidentiary proceeding.

In addition to considering the need for nonstop service in the Buffalo-Twin Cities market,⁶ we will place in issue in this proceeding (to be known as the Buffalo-Twin Cities Nonstop Service Investigation) the issue of whether United's authority to provide single-plane service in the Rochester/Buffalo-Twin Cities markets should be terminated or restricted. United's past service in these markets has been extremely limited, and at the present time United does not offer any single-plane service in them. In view of United's apparent lack of interest in these markets, the Board believes that modification of United's authority to provide single-plane service in them should be placed in issue in this case. In reaching this conclusion, we have considered not only United's discontinuance of service in the Rochester/Buffalo-Twin Cities markets, but the prospective favorable financial results that Mohawk may realize if it is not faced with the possibility of United's reentry into markets that may not be

able to support highly competitive services.

Northwest's motion to consolidate its application in Docket 19876 will be denied.⁷ Northwest's application seeks to amend its certificate for route 3 to add a new segment extending from the terminal point Milwaukee to the terminal point Boston via the intermediate points Buffalo, Rochester, and Hartford. Northwest's motion to consolidate this application will be denied because the authority sought does not fall within the clearly defined scope of the proceeding we are setting down for hearing, which is primarily concerned with determining the need for nonstop service in the Buffalo-Twin Cities market. In fact, the Northwest application does not seek authority to provide nonstop Buffalo-Twin Cities service; the best possible Buffalo-Twin Cities authority that Northwest could receive under its application would be one-stop service over Milwaukee. Moreover, consolidation of Northwest's application would place in issue nonstop service proposals in ten markets, none of which are in issue in this case. Such an expansion of the limited proceeding we contemplate is not required as matter of law or economic fact, since Northwest has made no showing that its application is mutually exclusive with Mohawk's application, or that the grant of nonstop Buffalo-Twin Cities authority to Mohawk would, as a matter of economic fact, preclude a subsequent grant of Milwaukee - Buffalo - Rochester - Hartford-Boston authority to Northwest.⁸

Accordingly, it is ordered, That:

1. The application of Mohawk Airlines in Docket 18659 be and it hereby is set for hearing, in a proceeding to be known as the Buffalo-Twin Cities Nonstop Service Investigation, Docket 18659;

2. An additional issue in said proceeding shall be whether the certificate of public convenience and necessity issued to United Air Lines for route 14 should be amended so as to terminate or restrict the holder's authority to provide single-plane service between Buffalo and Rochester, on the one hand, and Minneapolis/St. Paul;

3. Any authority awarded in this proceeding shall be in the form of a separate segment, and shall be without eligibility for subsidy;

4. Applications, motions to consolidate, and motions or petitions for modification

or reconsideration of this order shall be filed no later than 20 days after the date of service of this order, and answers to such pleadings shall be filed no later than 20 days thereafter;

5. Except to the extent granted herein, Mohawk's motion for an expedited hearing be and it hereby is denied;

6. Mohawk's motion for leave to file an untimely pleading be and it hereby is granted;

7. Northwest's motion to consolidate herein its application in Docket 19876 be and it hereby is denied;

8. This proceeding shall be set down for hearing before an examiner of the Board at a time and place hereafter designated; and

9. A copy of this order shall be served upon: American Airlines, Mohawk Airlines, Northwest Airlines, United Air Lines, New York State Department of Transportation, the cities of Hartford, Conn., Springfield, Mass., Albany, Syracuse, Rochester, and Buffalo, N.Y., Minneapolis and St. Paul, Minn., the Minnesota Department of Aeronautics, the Attorneys General for the States of Connecticut, New York, Minnesota, and the Minneapolis-St. Paul Metropolitan Airports Commission.

This order shall be published in the Federal Register.

SERVICE TO OMAHA AND DES MOINES CASE

Notice of Hearing

Notice is given herewith, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in the above-entitled proceeding will be held before the undersigned Examiner on October 29, 1968, at 10 a.m., c.s.t., in the conference room of the Terminal Building, Omaha Airport (Eppley Field), Omaha, Nebr. Upon conclusion of the Omaha session, the hearing will reconvene on November 12, 1968, at 10 a.m., c.s.t., in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

For information concerning the issues involved and other details of this proceeding, interested persons are referred to the various documents which are in the docket of this case on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., September 18, 1968.

Hearing Examiner.

¹Murphy, vice chairman, would not include the United deletion issue.

⁴Only one of the five markets in which Mohawk proposes single-plane service now receives single-plane service: United provides a one-stop roundtrip service in the Hartford-Twin Cities market. The rest of the markets receive on-line and interline connecting services, which are provided for the most part through the busy O'Hare airport. OAG, QRE, June 15, 1968.

⁵Petitions for leave to intervene were filed by the city of Syracuse, N.Y., the Minneapolis-St. Paul Metropolitan Airports Commission, and the State of Minnesota.

⁶Any award in this proceeding will be in the form of a new segment and will be granted without subsidy eligibility.

⁷Mohawk's motion to file an unauthorized document states that it was not served with Northwest's motion to consolidate its application and had no knowledge that such a motion had been filed until it received American's answer on May 20, 1968. There is good cause shown for Mohawk's failure to file a timely answer to Northwest's motion. Accordingly, the motion will be granted and the answer received.

⁸Milwaukee-Boston authority is in issue in the Twin Cities-Milwaukee Long-Haul Investigation, Docket 19097, and Northwest will not be foreclosed from presenting evidence in this proceeding on the question of mutual exclusivity as to the other markets.

[Docket No. 20253; Order 68-9-76]

TRANS CARIBBEAN AIRWAYS, INC.**Order of Investigation and Suspension**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of September 1968.

By tariff revisions,¹ marked to become effective September 20, 1968, Trans Caribbean proposes to amend the applicability of its existing night tourist fares between New York/Newark and San Juan to provide that such fares would apply at all times of the day when travel is on flights which make an intermediate stop at Washington, D.C. Trans Caribbean is also proposing a similar amendment to its New York-Aruba night tourist fares.

Presently, Trans Caribbean has in effect night tourist fares of \$45 and \$49 that apply on nonstop flights between New York and San Juan scheduled to depart between the hours of 11:30 p.m. and 7:31 a.m.² The \$45 fare is applicable on weekdays, the \$49 fare on weekends. In addition, the carrier offers regular tourist (third class) fares of \$60 and \$65 also applicable on weekdays and weekends, respectively, except that the latter fares apply on flights scheduled to depart between the hours of 7:31 a.m. and 11:30 p.m. If its proposal is approved, Trans Caribbean will have in effect two fare levels for its tourist service; \$45/\$49 one-stop tourist fares and the \$60/\$65 day tourist fares for the same type of service departing during the same hours of the day, the only differentiation being that the lower fares apply on flights via Washington, D.C. It should be noted here that the carrier has also in effect day tourist fares of \$60 and \$65 between Washington and San Juan, P.R., but not night tourist fares.

Pan American has filed a complaint against the proposal, requesting it be either rejected or investigated and suspended based on the grounds it is unjust, unreasonable, unduly preferential and prejudicial, and unjustly discriminatory. Eastern, while not filing a complaint against the proposal, has nonetheless filed a request for suspension and investigation, claiming it undercuts the basic rationale of off-peak or night tourist fares. In addition, both carriers submit the proposal will add to the already critical problem of peak hour traffic congestion at the JFK and Newark airports. Moreover, Pan American along with Eastern submits that the proposal runs squarely into section 404(b) of the Act where the Board has held that where the services provided are substantially similar, undue preference and prejudice exists where a passenger to a nearer point along the same route is charged the same fare or a higher fare than a passenger to a farther point. In essence, the Washington-San Juan passenger,

according to both Eastern and Pan American, is flying the shorter distance under the same class of service and would pay more than the New York/San Juan passenger on the same flight who flies the longer distance.

In support of its proposal and in answer to the complaints, Trans Caribbean asserts that the proposed fares are justified on the basis of the value of service considerations, due to the fact that the majority of flights in the market (27 round trips per day) are nonstop, and, according to the carrier, a one stop flight is not attractive. Under the instant proposal, the carrier submits that the total flight time will take 305 minutes, or over 50 percent more than under the current nonstop flight time of 200 minutes. Without an inducement, according to Trans Caribbean, no one would ordinarily take a flight that leaves 1 hour and 15 minutes earlier and which in addition to making a stop arrives a half-hour later.

Furthermore, Trans Caribbean claims that had they tried to obtain the same results by scheduling departures from New York or San Juan at hours during which the night fares now apply, such scheduling would restrict the flexibility of the Washington-San Juan schedules, thereby making them undesirable, due to the rather limited frequency of service available in this market compared to similar service departing and arriving in New York. Moreover, Trans Caribbean claims that the basic rationale relative to night tourist fares would not be destroyed should their proposal be permitted to become effective, since it rests on the same basic premise as here involved; namely, improving the economy of operations by providing an incentive to passengers to use inconvenient flights.

Upon consideration of all relevant matters, the Board finds that Trans Caribbean's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated.

There is nothing in the record to indicate that the New York-San Juan one-stop tourist fares of \$45 and \$49 proposed by Trans Caribbean are reasonably related to cost. The proposed fares are much lower than those now applicable during daytime hours for similar service and are at the level of fares which have heretofore been restricted to off-peak night hours. Furthermore, the proposal would aggravate the present traffic congestion at the New York airports and by making the low fares applicable during the daytime hours, there would be possible shifts of traffic to these fares from the night tourist service. Moreover, in as much as the New York-San Juan passenger would pay less under the carrier's proposal than the Washington-San Juan passenger on the same flight, who travels a shorter distance, there appears to be undue preference and prejudice within the meaning of section 404(b) of the Act. Accordingly, Trans Caribbean's proposal will be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly section 404(b) and 1002 thereof:

It is ordered, That:

1. An investigation be instituted to determine whether the "Tourist" one-way and round trip fares between San Juan, P.R., and New York, N.Y./Newark, N.J., the reference marks 1, 2, 3, and 4, and the explanations of such reference marks, on 42d and 43d revised pages 6 of Trans Caribbean Airways, Inc.'s CAB No. 26 (Trans Caribbean Airways, Inc., series), and rules, regulations, and practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the "Tourist" one-way and round trip fares between San Juan, P.R., and New York, N.Y./Newark, N.J., the reference marks 1, 2, 3, and 4, and the explanations of such reference marks, on 42d and 43d revised pages 6 of Trans Caribbean Airways, Inc.'s CAB No. 26 (Trans Caribbean Airways, Inc., series), are suspended and their use deferred to and including December 18, 1968, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. This investigation be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

4. Except to the extent granted herein, the complaints of Pan American World Airways, Inc., in Docket 20172, and Eastern Air Lines, Inc., in Docket 20178, are dismissed; and

5. A copy of this order be filed with the aforesaid tariff and served upon Trans Caribbean Airways, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

[Docket No. G-7110 etc.]

TRANSOCEAN OIL, INC., ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates¹

SEPTEMBER 17, 1968.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 9, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or

petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: Provided, however, that pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after July 1, 1967, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that desig-

nated for the particular area of production for the period prescribed therein unless at the time of filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

TENNESSEE GAS PIPELINE CO.

Notice of Application

SEPTEMBER 17, 1968.

Take notice that on September 11, 1968, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Applicant), Post Office Box 2511, Houston, Tex. 77001, filed in Docket No. CP69-65 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessary authorizing the

increased sale and delivery of natural gas in interstate commerce to Consolidated Gas Supply Corp. (Supply Corporation), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant requests authorization to sell and deliver to Supply Corporation an additional contracted demand volume of 40,800 Mcf per day of natural gas for the interim period November 1, 1968, to November 1, 1969. Applicant states that this service will be rendered by utilizing the capacity of the

pipeline loop between MLV 874 and 875 which was approved by the Commission on August 5, 1968, in Docket No. CP68-324 and that no other facilities are needed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before October 16, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

LEEDS SHOES, INC.

Order Terminating Summary Suspension of Trading

SEPTEMBER 18, 1968.

The common stock of Leeds Shoes, Inc., Tampa, Fla., and other securities of Leeds Shoes, Inc., being traded otherwise than on a national securities exchange; and

The Commission having, on September 16, 1968, issued an order pursuant to section 15(c)(5) of the Securities Exchange Act of 1934 summarily suspending trading in said securities in the over-the-counter market effective for the period September 17, 1968, through September 26, 1968, inclusive; and

The Commission being of the opinion that the public interest does not require the continuance of said suspension of trading after September 23, 1968:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that the suspension of trading pursuant to said order of September 16, 1968, shall terminate on September 23, 1968;

It is further ordered, That the said order of September 16, 1968, be, and the same hereby is, modified so as to permit the making of the offer by certain brokers and dealers as set forth in the

"Offer to Purchase 6 percent Convertible Subordinated Debentures Due August 1, 1987 of Leeds Shoes, Inc." dated September 18, 1968, and the acceptance of deposits of securities pursuant thereto commencing on September 18, 1968.

DEPARTMENT OF LABOR

EMPLOYMENT TESTS BY CONTRACTORS AND SUBCONTRACTORS

Validation

Validation of employment tests by contractors and subcontractors subject to the provisions of Executive Order 11246.

1. *General.* (a) The following order regarding the use of employment tests by contractors subject to the provisions of Executive Order 11246 is being issued in response to numerous requests for policy guidance by Government agencies and by contractors.

(b) Two matters regarding selection procedures are of foremost concern to the Government: (1) Recognizing the importance of proper procedures in the utilization and conservation of human resources generally, and (2) pointing out the possible adverse effects of improper procedures on the utilization of minority group personnel.

(c) The order is founded on the belief that properly validated and standardized tests, by virtue of their relative objectivity and freedom from the biases that are apt to characterize more subjective evaluation techniques, can contribute substantially to the implementation of equitable and nondiscriminatory personnel policies. Moreover, professionally developed tests, carefully used in conjunction with other tools of personnel assessment and complemented by sound programs of training and job design, can significantly aid in the development and maintenance of an efficient work force.

(d) An examination by the Office of Federal Contract Compliance of compliance reviews of contractors has affirmed the increasing reliance on tests in the conduct of personnel activities. In many cases contractors have come to rely almost exclusively on tests as the basis for making employment and promotion decisions, with candidates sometimes selected or rejected on the basis of a single test score. The examination also disclosed that where employment tests are so used, minority candidates frequently experience disproportionately high rates of rejection through failing to attain score levels that have been established as minimum standards for qualification.

(e) The examination further suggests that there has been a decided increase since 1963 in total test usage and a particularly notable increase in the incidence of doubtful testing practices which, experience indicates, tend to have racially discriminatory effects. These findings are particularly evident in testing programs related to blue-collar and clerical job categories.

(f) It has become clear that in many instances contractors are using tests to determine qualification for hire, transfer, or promotion without evidence that they are valid indices of performance potential. Where evidence in support of presumed relationships between test per-

formance and job behavior is lacking, the possibility of discrimination in the application of test results must be recognized. A test lacking validity (i.e., having no significant relationship to job behavior) and yielding lower scores for minority candidates may resultantly reject many who have probabilities of successful work performance equal to those of nonminority candidates.

(g) The order that follows, dealing with basic issues of validity and fairness in those selection programs in which blue-collar and clerical job categories are primarily involved, was developed only after extensive discussions of the many complex problems and technical considerations with test experts and personnel management specialists from both academia and industry. The provisions of the order are designed to serve as a workable set of criteria for agencies and contractors in determining whether or not selection practices are in compliance with Executive Order 11246.

It is recognized that the tests used by the State Employment Agencies should be similarly validated, and it is expected that the U.S. Employment Service will expand, as necessary, its test validation program for State Agencies.

It is also recognized that test usage, as well as test validity, must be reviewed to determine its effect on the employment of minorities. For example, a test may be suspect when it is given in a language in which a significant number of minority applicants are not proficient and where language proficiency itself is not a bona fide requirement for the job. Similarly, a test or other qualification standard should not be used in a situation involving the transfer or promotion of minority employees when such employees would already have occupied the positions involved without such qualifications were it not for past discriminatory practices.

Specific directives concerning test usage will be issued by the Office of Federal Contract Compliance within a short time.

2. *Evidence of validity.* (a) It is directed that each agency require each contractor regularly using tests to select from among candidates for hire, transfer or promotion to jobs other than professional, technical and managerial occupations (defined as occupational groups "O" and "I" in the "Dictionary of Occupational Titles," Third Ed.) to have available for inspection, within a reasonable time, evidence that the tests are valid for their intended purposes. Such evidence shall be examined in compliance reviews for indications of possible discrimination, such as instances of higher rejection rates for minority candidates than nonminority candidates.

(b) Evidence of a test's validity should consist of empirical data demonstrating that the test is predictive of or significantly correlated with important elements of work behavior comprising or relevant to the job(s) for which candidates are being evaluated.

(1) If job progression structures and seniority provisions are so established

that a new employee will probably, within a reasonable period of time and in a great majority of cases, progress to a higher level, it may be considered that candidates are being evaluated for jobs at that higher level. However, where job progression is not so nearly automatic, or the time span is such that higher level jobs may be expected to change in significant ways, it shall be considered that candidates are being evaluated for a job at or near the entry level. In the latter case, it would be appropriate for a contractor to institute performance or other tests as a condition of promotion provided such tests also have been validated pursuant to the provisions of this order.

(2) Where a test is to be used in different units of a multiunit organization and no significant differences exist between units, jobs, and applicant populations, evidence obtained in one unit may also suffice for the other. Similarly, where the validation process requires the collection of data throughout a multiunit organization, evidence of validity specific to each unit may not be required.

3. *Minimum standards for validation.* For the purpose of satisfying this order, empirical evidence in support of a test's validity must be based on studies employing generally accepted procedures for determining criterion-related validity, such as those described in the American Psychological Association's "Standards for Education and Psychological Tests and Manuals." (Evidence of content or construct validity may also be appropriate where criterion-related validity is not technically feasible, but it should be accompanied by sufficient information from job analyses to demonstrate the relevance of the content in the case of job knowledge or proficiency tests or the construct in the case of trait measures.) Although any appropriate validation strategy may be used to develop such empirical evidence, the following minimum standards must be met by any approach used so far as applicable:

(1) Where a predictive validity study is conducted, the sample of subjects must be representative of the normal or typical candidate group for the job(s) in question. Where a concurrent validity study is conducted, the sample should be, so far as technically feasible, representative of the minority groups currently included in the candidate population.

(2) Tests must be administered and scored under controlled and standardized conditions, with proper safeguards employed to protect the security of test scores and insure that scores do not enter into any judgments of individual adequacy that are to be used as criterion measures.

(3) The work behaviors or other criteria of employee adequacy which the test is intended to predict or identify must be fully described. Such criteria may include measures other than actual work proficiency, such as training time, supervisory ratings, regularity of attendance, and tenure. In view of the possibility of bias inherent in subjective evaluations, supervisory rating techniques

should be developed carefully and the ratings themselves examined closely for evidence of bias. Whatever criteria are used, however, they should represent major or critical work behaviors as revealed by careful job analyses.

(4) Presentations of the results of a validation study must include graphical and statistical representations of the relationships between the test and the criteria, permitting judgments of the test's utility in making predictions of future work behavior.

(5) Data must be generated and results reported separately for minority and nonminority groups wherever technically feasible.

4. U.S. employment service validation. Compliance with this order shall be the responsibility of the contractor; however, where testing services of a State Employment Agency are used, the following rules shall apply:

(1) In cases where a contractor uses the testing services of a State Employment Service Office, and the tests used by the State Office have been validated pursuant to the requirements of this order, the employer shall have on file the U.S. Employment Service certification of this fact, which shall be accepted as compliance with this order. (If further tests are required by the contractor, he remains responsible for determination of the validity of such further tests.)

(2) In cases where a contractor uses the testing services of a State Employment Service Office and the tests used by the State Office have not been validated for particular jobs pursuant to the requirements of this order, the contractor shall, as a condition for future use, cooperate with the State Office to effect validation of tests as they relate to job requirements of the contractor.

5. Use of validity studies. In cases where the validity of a test cannot be determined pursuant to section 3 above (e.g., the number of subjects is less than that required for a technically adequate validation study, or an appropriate criterion measure cannot be developed), evidence from validity studies conducted in other organizations, such as that reported in test manuals and professional literature, may be considered acceptable when: (a) The studies pertain to jobs which are comparable (i.e., have basically the same task elements), and (b) there are no major differences in contextual variables or sample composition which are likely to significantly affect validity.

6. Assumptions of validity. (a) Under no circumstances will the general reputation of a test, its author or its publisher, or casual reports of test utility be accepted in lieu of evidence of validity. Specifically ruled out are: assumptions of validity based on test names or descriptive labels, all forms of promotional literature, data bearing on the frequency of a test's usage, testimonial statements of sellers or users, and other nonempirically based and anecdotal accounts of testing practices or testing outcomes.

(b) Although professional supervision of testing activities may help greatly to insure technically sound and nondiscriminatory

test usage, such involvement alone shall not be regarded as constituting satisfactory evidence of test validity.

7. Continued use of tests. Under certain conditions, a contractor may be permitted to continue the use of a test which is not at the moment fully supported by the required evidence of validity. If, for example, evidence of criterion-related validity in a specific setting is technically feasible and required but not yet obtained, the use of the test may continue *Provided:* (a) The contractor can cite substantial evidence of validity as described in section 5 above, and (b) he has in progress, validation procedures which are designed to produce, within a reasonable time, the additional data required. It is expected also that the contractor will use cut-off scores which yield score ranges broad enough to permit the identification of criterion-related validity.

8. Affirmative action. Nothing in this order shall be interpreted as diminishing a contractor's obligation to undertake affirmative action to ensure that applicants and current employees are treated without regard to race, creed, color or national origin. Specifically, the use of tests which have been validated pursuant to this order does not relieve the contractor of his obligation to take positive and affirmative action in affording employment and training to minority group personnel.

9. Definition of "test." For the purpose of this order, "test" is defined as any paper-and-pencil or performance measure used to judge qualifications for hire, transfer or promotion. This definition includes, but is not restricted to, measures of general intelligence, mental ability, and learning ability; specific intellectual abilities; mechanical, clerical and other aptitudes; knowledge and proficiency; occupational and other interests; and personality or temperament.

10. Other selection techniques. Selection techniques other than tests may also be improperly used so as to have the effect of discriminating against minority groups. Such techniques include, but are not restricted to, unscored interviews, unscored application forms, and records of educational and work history. Where there are data suggesting that such unfair discrimination exists (e.g., differential rates of rejecting applicants from different ethnic groups or disproportionate representation of some ethnic groups in employment in certain classes of jobs), then the contractor may be called upon to present evidence concerning the validity of his unscored procedures as well as of any tests which may be used, the evidence of validity being of the same types referred to in sections 2 and 3. If the contractor is unable or unwilling to perform such validation studies, he has the option of adjusting employment procedures so as to eliminate the conditions suggestive of unfair discrimination.

11. Compliance review. (a) Contractor practices in the use of employment tests and other selection techniques as qualification standards should be examined carefully for possible noncompliance

with the requirements of Executive Order 11246 when:

(1) There is a lack of evidence of test validity, but the contractor continues to use test scores as a basis for personnel decisions; or,

(2) The contractor is unwilling to conduct test validation studies, when such studies are technically feasible, or otherwise provide evidence of validity as a requirement for continued test usage; or,

(3) When other selection techniques are used as identified in section 10 above, and there is information suggesting unfair discrimination in employment of minority groups, and the contractor refuses to validate these techniques or to eliminate the conditions suggestive of unfair discrimination.

(b) A determination on noncompliance pursuant to the provisions of this order shall be grounds for the imposition of sanctions under Executive Order 11246.

(c) The use by a contractor of tests or other selection techniques for which there is evidence of unfair discrimination or differential validity patterns for minority and nonminority groups, and no adjustment has been made for this finding, shall be grounds for the imposition of sanctions under Executive Order 11246.

12. Exemptions. (a) Requests for exemptions from this order or any part thereof must be made in writing, with justification, to the Director, Office of Federal Contract Compliance, Washington, D.C., and shall be forwarded through and with the endorsement of the agency head.

(b) The provisions set forth above shall not apply to any contract when the head of the contracting agency determines that such contract is essential to the national security. Upon making such a determination, the agency head will notify the Director, in writing, within 30 days.

13. Agency implementation program. (a) Each agency shall, within 90 days of the date of this order, submit a program to implement this order. The program shall include the establishment of priorities for enforcement that meet the following criteria: Reviews of the selection programs of—

(1) Contractors employing 2,500 or more beginning 6 months from the date of this order;

(2) Contractors employing 1,000 or more beginning 1 year from the date of this order;

(3) All other contractors beginning 18 months from the date of this order.

(b) Notwithstanding subsection (a) of this section, each agency shall identify from agency files of compliance reviews or complaints those files which indicate a probability of the use of tests and other selection techniques not in accordance with the provisions of this order.

(c) The agency shall after such identification and consultation with the Office of Federal Contract Compliance, inform the contractor of the possible violation

of the order and ask for a written program to be submitted within 30 days that will conform to the order.

(d) Each agency shall assign responsibility for compliance with this order at Headquarters level and furnish the name of the assigned officer to the Office of Federal Contract Compliance.

(e) Each contracting and administering agency shall issue the following instructions to field personnel concerning procedures to be adopted on investigations under this order:

(1) The investigator will make only a determination of facts from the company records and appropriate interviews with management.

(2) He will carefully document the effect of the current selection program on minority applicants and employees.

(3) He will inquire as to whether validation studies have been completed for any tests being used. If the contractor's answer is affirmative, the investigator will obtain copies of the validation studies to include in the report.

(4) With respect to other selection techniques as discussed in section 10, if information suggests the existence of unfair discrimination against minority groups, we will inquire as to whether validation studies have been completed for these techniques. If the contractor's answer is affirmative, the investigator will obtain copies of the validation studies to include in the report. If the answer is negative, he will inquire as to whether such validation studies are being undertaken or, if not, what measures the contractor contemplates to eliminate the conditions suggestive of unfair discrimination.

14. *Effect of this order on other rules and regulations.* (a) All orders, instructions, regulations, and memoranda of the Secretary of Labor, other officials of the Department of Labor and contracting agencies are superseded to the extent that they are inconsistent herewith.

(b) Nothing in this order shall be interpreted to diminish the present con-

tract compliance review and complaint investigation programs.

15. *Authority.* (a) General: Executive Order 11246, dated September 24, 1965, and Secretary's Order No. 26-65, dated October 5, 1965 (31 F.R. 6921).

(b) Specific:

(1) Part II, Subpart C, section 205 of Executive Order 11246.

(2) Part II, Subpart C, section 206 (a) and (b) of Executive Order 11246.

(3) Part III, section 301 of Executive Order 11246.

(4) Part III, section 303 (a) and (b) of Executive Order 11246.

(5) Part IV, section 403(b) of Executive Order 11246.

16. *Effective date.* This order shall be effective immediately.

Signed at Washington, D.C., this 9th day of September 1968.

WILLARD WIRTZ,
Secretary of Labor.
